

PROTEC

**Your vision.
Our expertise.**

Exceptional & inspiring event solutions.

Trusted for our consistency and reliability, our team delivers comprehensive solutions for all events, from the most engaging brand activations and immersive experiences to high profile major events across the UK, Europe, Middle East, Africa, and Asia. Our carefully curated team of event industry professionals share a passion and drive to make every event a memorable one.

**The world's best
event technology
available locally.**

Our impressive facilities are home to over \$80m of specialised **event technology, staging, rigging, and scenic & fabrication** workshops. We are committed to being a comprehensive solutions provider. Our clients have everything they need under one roof eliminating risk and ensuring clear streamlined communication. Our vast selection of industry preferred brands in-house allows us to be creative, adaptable and flexible with shorter lead times. Our focus on quality & reliability ensures our equipment is maintained and stored with the utmost care and attention.

Award-winning technical expertise.

Our clients enjoy the benefit of working with a multi-award winning team who have the experience necessary to eliminate risk.

Our awards include:

- **2 Eventex Global Awards** - Gold for *Best Middle Eastern Event* and Bronze for *Best Event Industry Supplier* worldwide.
- **7 Middle East Special Event Show & Exhibition Awards** including an *Industry Icon Award*.
- **4 TPMEA** awards recognising individuals in our team.
- **1 WOW Award** - Gold Award for Opening/Closing Ceremony of the Year

At Protec we are committed to safety, quality and reliability.

Protec is an ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 certified company. We never cut corners on quality, safety, or reliability. We work hard to respect the environment, our client's event space and ensure we minimise our impact both on site and within our warehouses.

AUDIO

PROTEC

Whatever the venue, from large arena shows to intimate conference meeting rooms, Protec has a trusted audio solution using market-leading technology.

Protec uses world-class PA, scalable for any venue from arenas and stadiums to intimate conference rooms to ensure clean, clear audio for every audience member. A large selection of the most popular, powerful and prestigious mixing consoles are available, supported by our knowledgeable and professional engineers, and are adaptable to your needs.

With 3D modelling and precise design, our engineers are able to install sound systems perfectly suited to specific venues, providing flawless coverage from front to back and even creating immersive environments.

We understand all areas of audio and deliver ideas, practical assistance, advice and support. If you need to hire a professional quality audio system for a major production, conference or immersive experience, we can help you deliver the best performance to authentically captivate your guests.

VIDEO

PROTEC

With a greater demand for immersive experiences, our video specialists can transform event spaces into engaging environments that captivate and transport audiences.

Video technology is fast evolving and Protec is committed to pushing the boundaries of what is possible. We use the latest technologies in projection mapping and LED to realise the most creative briefs. Whether we are mapping large architecture, small objects or temporary stages, we have the technology and skills to create visual effects that transform environments. With 180+ projectors and over 800m2 of LED in-house we have the capabilities to deliver anything from large scale events to intimate brand activations and interactive exhibition stands. Engaging a combination of immersive technologies to create an environment in which users are completely surrounded, we transform ordinary spaces into sensory immersive experiences to powerfully engage your audience. We focus on the details to ensure your event leaves a lasting impression.

LIGHTING

PROTEC

The visual backbone that can change the sheer complexity of your show. Lighting is crucial, not just to create an ambience, but to highlight the most important elements, both on and off stage.

We are equipped with state of the art fixtures, world class lighting directors, designers, engineers and technicians. Our lighting stock and technology is continually growing exponentially across Europe and the Middle East, with our Middle East stock already the largest and considered the benchmark of its category in the region.

Our lighting designers are artists. They understand style, composition, balance, aesthetics and human emotions. Equipped with over 6000 of the most modern and contemporary fixtures available from tungsten to moving LED, they make sure every show element is seen in its most dynamic form.

BACKLINE

From vintage and rare to technologically advanced, Protec has an extensive collection of brand new top of the range professional instruments, in addition to a range of superb classics.

This kit coupled with our globally respected backline technicians, who have had a lifetime on the road with some of the greatest and most demanding bands in the music industry, allows us to provide the dependable support that every world-class performer expects.

Whether you need full orchestral or band support for gala dinners or concerts, we ensure your event sounds authentic, accurate & full.

All our equipment is flight cased and maintained in immaculate working condition.

RIGGING

PROTEC

Our riggers specialise in precision, safety & perfection, from simple ground support systems to complex roof structures with enough motors to lift a total of over 400 tonnes.

We carry the region's largest stock of trussing, motors, rigging and ground support systems to satisfy the most demanding design. Audio, lighting, video and sets are fully integrable with customisable rigging solutions, from indoor ballroom events to outdoor concert stages.

Safety is critical in all aspects of our work. All of our riggers are trained and certified and keep abreast of all the latest international rigging safety standards and techniques.

SCENIC & STAGING

Whether your event calls for a budget-friendly stock set or a custom-built masterpiece, our staging team has the experience, skills and resources to achieve your vision.

Our staging crew have designed and built tailor-made sets for some of the most challenging productions – working within venue & space restrictions, budgets & theatrical complexities, with attention to detail, safety and accuracy.

As a leading outdoor stage and production provider, we have over 3500 sq. meters of outdoor stage systems which are ideal for a wide range of events. We also supply SFX systems – Flame Jets, CO2 Jets, Confetti, Bubbles or Fog.

STRUCTURES

PROTEC

Weatherproof. Customisable. Strong. Modular. Protec's Supadome is the perfect venue solution.

Protec's eight-bay Supadome multi-purpose venue with a capacity of up to 5000 pax is a modular, incredibly strong, and weatherproof structure that can be placed anywhere, so that clients can enjoy the location of their choice.

With an internal area of 2,699sqm (29,000 sq ft) and an impressive 15.8 metres of headroom, the 36m wide x 84m long Supadome has plenty of height and rigging points throughout the roof with an internal weight loading capacity of over 40 tonnes, meaning no compromises on production value. It's modular design and brandable exterior make it an ideal venue for events ranging from concerts to exhibitions, weddings or galas.

We also have a broad selection of roof structures to accommodate any need.

CONFERENCE TECHNOLOGIES

PROTEC

We equip meetings and conferences of every size, providing conference and show technology to support general sessions, breakout rooms and exhibits.

We supply everything that is needed to accomplish high-end solutions with complete staging, audio, lighting, video and content support. Our abundant state of the art equipment includes discussion systems, simultaneous interpretation and a voting system which can be used by over 2000 delegates.

Our database includes the most experienced interpreters who can assist in any language required. Our simultaneous interpretation systems, housed in soundproof booths, can interpret up to 8 languages at any one time.

//SERVICES

DESIGN & CONTENT

PROTEC

With a thorough knowledge of the technologies available within this industry, Protec provides a full design support service – from conceptual design to on-site build up and breakdown.

We use technology innovatively within our designs, allowing us to take your event to a new level and experience that you may not have imagined possible.

If you have an idea in mind or need help developing it, our Maya, Adobe or Autodesk specialists will bring your idea to life.

Our CAD specialists will ensure that every technical aspect is accurate and practical. Protec Design & Graphics is accomplished both at creating sophisticated visuals of sets & venues as well as animations.

DESIGN

Our approach.

At Protec, we have always believed that every member of an audience deserves the best seat in the house and as such, have nurtured and developed a method that has had our audiences from around the world, experience some of the most extraordinary and memorable shows since our inception in 1999.

Fundamentally, it comes down to investing in the **best kit and the best people.**

To deliver a successful project, you must have strength across every department. Our commitment to a total staging and technical solutions production package, from designing to delivering exceptional events in any venue or location, remains true and consistent. We have a vast inventory of the latest staging and technical equipment that is operated by a strong team, comprised of some of the world's most creative, skilled and experienced professionals.

Our reputation for inspiring audiences has made Protec the preferred choice for high profile award winning events. We listen to the brief, then using our wealth of expertise, deliver our client's vision beyond expectations.
