WIRELESS USB BASE STATION

BW—BSue

The Broadweigh BSue base station is provided with a rugged IP67 housing and an increased range of up to 800 m (2600 ft)

Features

- Up to 800 m (2600 ft) range
- Simple plug & play USB
- Configures any Broadweigh telemetry module via USB connection
- Powered from USB
- Used in conjunction with Broadweigh software
- IP67 rated enclosure

About

The Broadweigh extended range base station offers line of sight range of up to 800 m (1/2 mile) for Broadweigh shackles. It is used to provide wireless data to PCs from Broadweigh sensors.

Powered from the USB bus, no batteries are required, so no other modules are needed to configure and control wireless sensors from the PC. Used in conjunction with Broadweigh's powerful visualisation and logging software.
