Sensors

WIRELESS LOAD SHACKLES

BW-S325 BW-S475

High accuracy load-pin and integrated electronics for real-time load monitoring without the need for costly, time consuming cabling

Features

- Zero Trim Shackle
- 5:1 safety factor
- · Anti-rotational bracket
- Unit conversion for kg, lbs, tonnes, ton, ton (US), kN
- Accuracy typically ±1% of current load or ±25 kg (whichever is the greater value)
- Fully weatherised (IP67)
- Machinery Directive 2006/42/EC compliant
- · Supplied pre-calibrated

About

The Broadweigh load cell shackle features a high accuracy aerospace graded stainless steel load pin with a load centralising bobbin as standard. Accuracy typically ±1% of current load or ±25 kg (whichever is the greater value).

Built to withstand the demands of varying environments and weather, the Broadweigh shackle offers real-time load monitoring for rigging professionals, enabling them to monitor and log the precise loads on any given rigging point.

The Broadweigh shackle has a unique small head height design and can transmit up to 800 m (1/2 mile).

Specifications

Measurement

Accuracy	Typically ±1% of load or ±25 kg, whichever is greater
Weight Range (WLL)	3,250 or 4,750 kg

Battery Life (one update per second)

2x AA Duracell: asleep	5+ years
2x AA Duracell: continuous	3 months
2x AA Duracell: 8 hours a day	8 months
2x AA Duracell: 2 hours a day	2.5 years

Environmenta

-20 to 55 °C
-40 to 85 °C
95% RH
IP67
