Location: Östersund, Sweden

Year: 2017-2018

Developer: [Östersunds kommun](#)

Client: [NCC Sverige AB](#)

Project manager: [Kim Ekblad](#), +46 72-552 18 19

A total contract of all additions to the newly renovated [Storsjöteatern](#) in the heart of Östersund. Here cultural enthusiasts, gourmets, conference guests and the people of the city meet, eat and drink as well as take part of all kinds of culture.

This cultural center of the city was being upgraded with, among other things, a new faster lifting system and we were tasked with doing all the customers additions. This came to include: FlexRail curtain tracks, covering the whole stage with quality textiles, Harlequin dance floors, truss from TAF, chain hoists from GIS, a wireless FlexControl system to the stage in the foyer and a permanent stage from MOTT with brass details.

Used products:

- TAF truss
- FlexControl control system
- FlexRail curtain rail systems
- GIS chain hoists
- MOTT mobile stages
- Harlequin dance floors
- Textile for the curtains
