## MCP Feed Supplement

### MCP Feed Supplement

A pure natural product that stabilizes the good digestive bacteria, prevents diarrhea, and increases uptake of proteins.

MCP feed supplement are strongly ion binding. Works like magnet on toxins and absorb nitrogen. Several studies show that MCP feed supplement keeps pigs healthier and increased growth.

MCP is used in much of the world, in the feed to Eliminate animal poisonings.

### Experiences from Europe

Testing and monitoring of MCP feed supplement have shown unambiguously positive results. MCP is already used for pig and cattle farming and chicken farms.

**Dosage** 8 – 10 kg / ton.

### What does the breeders say?

– *"The weight increased 1.5 kg and mortality to below 1%. Our pigs develop better until slaughter. The additional cost for MCP feed supplement quickly pays for itself in reduced mortality "*

Gert-Åke Larsson, Örum, Löderup

– *"Very good with pigs expectations, feels that the sows are feeling better. The pigs are viable and take for themselves, is on the ball against the teats. Can only give MCP reason for this positive change. No pigs died in growth stalls "*

Ingemar Gerhardsson, Löderup

### Shipping Option

- 25 kg
- Big Bag 1000 kg
