

# RHYGUAN

## KISS-330-SD | HIGH-SPEED FLATBED DIE CUTTING MACHINE

High-speed flatbed die cutting machine with Rhyguan's special dancer paper feeding system, enabling impressive speeds of up to 120 m/min. Features flexo printing, cold foil, flatbed hot foil, hot laminator, sheeter, slitter etc.

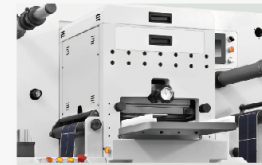

# RHYGUAN

KISS-330-SD	OPTION WIDTH 420MM/520MM
Max Web Width	330 mm
Max Speed	120 m / min
Max Unwinder dia.	700 mm
Max Rewinder dia.	700 mm
Min Slitting width	16 mm
Accuracy of Adhesive Cutting	±0.15 mm
Air Supply	0.4-0.6 MPa
Total Motor Power	14 KW
Dimension	2800 × 1260 × 2005 mm
Weight	2800 KGS

### UNWINDER & WEB GUIDING

Unwinder with closed-loop tension control. Electronic web guide with ultrasonic edge guide sensor. 76 mm air expanding mandrel. Max diameter 700 mm – 1000 mm roll capacity.

### FLATBED DIE CUTTER

Independent, servo-driven high-speed cutter for adhesive paper, Dacron labels and laser hologram marks.

### LAMINATOR

Optional, tension-controlled lamination for liner or linerless substrates.

### REWINDER

Rewinder with closed-loop tension control system ensures continuous stable tension. 700 mm maximum rewind diameter.

High-speed flatbed die cutting machine  
Max 400 repeats/min
