30 years lifetime

Browse through your archive via a webbased interface

For:

- files that you sporadically need
- long-term offline storage

Examples:

- finished projects
- multitrack audio files
- iso camera files

Frequent Back-up

Secure Private Cloud

For:

- long-term storage for files that you frequently need or need quick access to
- short-term storage offsite backup for "active" projects

Examples:

- long-term: masters, instrumentals, etc..
- short-term: daily backups of your current audio- and videoprojects
