ROSE CARE SERVICES LIMITED

**QUALITY LIVE-IN CARE
PROVIDER**

What is Private Live-in care?

With Rose Care Services Ltd, in private live-in care, a professional carer is assigned to reside with your loved one in their home and assist with day-to-day tasks. Your loved one or you will have to decide how many hours of daily care they need.

A live-in carer is always on call as a friend and a source of comfort and care. In an emergency, you can rest easy knowing that your loved one will get help right away. We can generally put together a team of care professionals to provide round-the-clock care for you when you need it and wish to stay in your own home.

Why settle for Private Live-in Care?

You or your loved one will be paired with a carer based on your similar interests and characteristics. A deep sense of trust is developed since we only hire people who are nice, caring, and have a big heart, and who always put the interests of the customer first.

You or your loved one can decide when you think you'll need help the most and set the carer's typical hours of work. Your carer will be given time to relax, sleep, and participate in everyday activities at home while they aren't working.

Our Services

Assistance with safe mobility

We make sure that your home is safe to improve mobility and movement whilst minimising falls.

Domestic tasks and Cooking

Our Carer will cook for/ with you nutritious meals that suit your dietary needs. They will also help you keep your home tidy by cleaning it.

Assistance with social activities

We make sure that you stay in touch with your local community. This can be achieved by attending local events or visiting friends and family with the company of your Carer.

Personal Care

We provide discreet and sensitive personal care such as bathing, dressing, shaving, and continence.

Companionship

We match you with a Carer that has a similar interests and personality with you to ensure that life becomes interesting and enjoyable.

Managing Medication

Our Carers are trained in Medication management and will prompt you to take medication. They can also make medical appointments or accompany you to health professionals.
