THE IFR COMMITTEE INVESTIGATING BREEDING REGULATIONS AND BREEDING SUITABILITY TEST.

Dear IFR-Members,

As was decided by the Meeting of Delegates, a Committee was formed to study all existent breeding regulations and breed suitability tests and to work out an advice about their conformity to the IFR-Constitution.

The members of the Committee are:

- Carsten Henriksen (Denmark)
- Veronica Nilsson (Sweden)
- Frank Beiboer (The Netherlands)
- Paul Dieter Viehoff (ADRK)
- Dirk Vandecasteele

The committee will be chaired and led by Mr. C. Henriksen.

It goes without saying that the Committee can and will not advise the Meeting of Delegates and/or publish its conclusions before taking the advice of the ADRK who is after all the only organisation empowered to decide on the breed's definition.

Lastly but not least, the success of the Committee will depend on your cooperation. We hope and insist that all Delegates will offer all cooperation that will be asked for and this as quickly as possible.

So not only words but action - the Rottweiler's future needs us.

With friendly greetings,

Carsten Henriksen
Board member
