

Construction All Risk

In relation to construction projects, we offer Construction All Risk (CAR) and Erection All Risk (EAR) insurances. For small to midsize projects, we provide full solutions, and for larger projects we offer co-insurance.

Projects typically include multilevel and basement buildings, civil projects, and infrastructure. Covers can be extended to include delay in start-up (DSU).

- In-house experts on construction methods, building design, etc., available for assistance to determine insurance requirements
- Project based or open annual cover
- Dangerous works can be included subject to analysis
- Coverage includes LEG1 – LEG3 (design exclusion, sublimited)
- Covers existing property
- Includes third-party liability
