

Offshore Wind

Our Offshore Wind insurance solution provides marine cargo and construction coverage that protects the owner, manufacturer, or constructor's offshore wind assets in the event of unexpected accidents during the construction period. Cover can be extended to include re-imbursment of lost future income as a result of such damage.

In case of unexpected accidents during operation, our Offshore Wind operation coverage protects the owner / operators' assets. Cover can be extended to include re-imbursment of lost income as a result of such damage.

Cyber cover can be included in conjunction with this policy.
