

Healthcare

Our comprehensive healthcare solution, offered in partnership with Falck Healthcare, empowers your company to safeguard the wellbeing of your employees. By supporting healthier, longer, and more sustainable working lives, our solution creates value for employees, businesses, and society as a whole. The robust healthcare solution, backed by Falck Healthcare's decades of experience, ensures that your employees receive fast, professional support, physically and mentally, exactly when they need it, even at the earliest signs of distress.

Advantages and coverage with RiskPoint's Health Solution

- Coverage consists of a basic package including, among other things, online doctor services, physical treatment, addiction treatment, transportation, rapid diagnosis, and treatment
- Designed for companies from one employee and up
- Access to Falck Healthcare's extensive network of healthcare professionals
- No requirement to submit health information when entering the scheme
- No requirement for a doctor's referral unless specified under the individual benefit
- Optional coverages available, including children and spouses or partners, work retention support, and massage therapy
- Special add-on options available, price by agreement, including acute psychological crisis support for groups, and business psychology such as lectures or workshops
