

Ragdoll		Update 01.01.2010												
Body	<p>The medium to large sized cat is muscular and heavy. The legs are also muscular and of medium length. The paws are large, compact and round with toe tufts. The tail is long, slightly tapering and with a bushy furnishing.</p>													
Head	<p>The solid, rounded part of the muzzle elongates over well developed cheeks into an equilateral triangle. The top of the head between the ears is noticeably flat. The profile is slightly curved, the nose slightly concave. The chin is firm.</p>													
Ears	<p>The ears are medium sized, broad at the base with a slightly rounded tip. They are set wide apart and slightly tilted forwards.</p>													
Eyes	<p>The eyes are large, open and oval. They are set wide apart and slightly slanted. The colour is an intense blue, the darker the better.</p>													
Coat	<p>The coat is of medium length, silky in texture and with minimal undercoat. The coat is longest at the neck. Breeches are desirable.</p>													
Colour varieties	<p>The Ragdoll is a pointed cat with Siamese points and recognized in all pointed colours. The description of colours is listed in the general list of colours.</p> <p>The Ragdoll is recognized in three patterns:</p> <table border="1"> <tr> <td>Colourpoint</td> <td>Classical pointed pattern without white.
