Eton SAFETY
EQUIPMENT

SPECIFICATIONS

Safety Helmet (White) ES-SHA01W

DESCRIPTION:

Eton Safety V-Spec Safety helmet is made from high quality ABS which gives the wearer a higher level of protection. The helmet's high profile design means it can also be fitted with ear defenders. Protective eyewear can also be worn and will not interfere with the helmet. The helmet also has a rain gutter for working outdoors. As an all round general safety helmet this is one of the best on the market.

- Robust design, durable shell construction
- Cooling vents for improved air circulation and comfort

Size 52 cm to 62 cm.
