

Rubber Speed Bump ES-B03 (75mm)

In places that require cars to reduce speed, e.g., near schools, kindergartens, children playgrounds, neighborhood parks, and secondary roads. On roads that do not differentiate between sidewalks and driveways, and where there is an increased danger of traffic accidents because there are many pedestrians or children playing. Near housing complexes, neighborhood shopping facilities, schools, hospitals, and religious facilities that have many passing cars and require speed restrictions. Near the parking lot entrances of apartments, shopping centers, and large buildings.
