

# **Waxaan rabnaa inaan sii wadno dhismaha bulsho waarta si wadajir ah. Hormarku talaabo wayn ayuu horay u qaaday, taasoo laga arkayo Skellefteå Kommun.**

Socialdemokraterna waa xisbi u tagaan wadajir, sinnaan (dadka) sinnanta (ragga iyo dumarka). Waxaan u taaganahay dhismaha bulsho taas oo dhammaan muwaadiniinta ay kuwada jiraan. Taasi micnaheda waa in kuligeen si wada jir ah, marka loo eego shuruudaheena aan isku caawino waxii aan awoodno.

Magaaladeen, magaalooyinka yaryar iyo tuulooyinka waa in loo dhisaa hab ay ku waraan mustaqbalka. Siyaasadda daryeelka waa in ay noqotaa mid guud oo u furan dhamaan. Waa in ay noqotaa mid canshuurta lagu maalgaliyo iyo in lagu qaybiyo baahiya jira.

Waa in aan noqonaa dagmo amaan ah oo lagu noolaado. Qof walba, si kasta. Shaqadeena bulsho ee muhiimka ah waa in ay bulshadu leedahay oo aynan lahayn shirkado gaar looleeyahay.

Dagmadu waa in ay noqotaa bandhig isbadal cagaaran. Waxaanu sii wadi doonaa in aan u istaagno qaabkeenii socialdemokratiska, kaas oo ah midnimo, adkaysi iyo nabad qab, tan ayaa dhidibbada u taagaya mustaqbalka ina soo food leh.

# WE'RE MAKING ONE GIANT LEAP WITH OUR MODEL OF SOCIAL DEMOCRACY

We want to keep building a sustainable society together. Our growth rate is making one giant leap that will keep making a mark on our municipality in Skellefteå.

Socialdemokraterna is a party grounded in solidarity and equality. We take a stand for the building of a community that includes all our citizens. That means we mutually contribute with what we can, given our prerequisites.

We strive to build our city, local towns and villages in ways that are sustainable for the future. It is in our common interest that our entire municipality should thrive and grow.

Social security should be a general model open for everyone. It should be funded by taxes and distributed as needed. Our municipality should be a safe place to live, for everyone, in every way.

Our important societal functions should be publically owned and operated and we will be the display window for a green transition.

We will keep taking our stand for our model of social democracy. With solidarity, sustainability and social security it has laid the foundation for the future to come.
