

NVC IN EDUCATION

INVITES YOU and EVERYBODY
interested in exploring and applying
Nonviolent Communication (NVC)
in education to the

Mutual Education Laboratory

*Building the classroom
we always dreamed of*

Orvieto, Italy 7 - 10 November 2024

Topic of this Lab:

- How to live and learn together in a mutually respectful way.
- Dealing with conflicts in ways that strengthen trustful relationships.
- Receiving challenging behavior as a key to support students' inner motivation.
- Showing my care for myself and others in my way of speaking and listening.

As a participant you are welcome to join a team of experienced Nonviolent Communication trainers and practitioners dedicated to cultivating the field of Mutual Education. We will share best practices and explore ways to apply NVC in learning environments. Sustaining the joy of learning for all of us can be the outcome.

Trainers:

- Gabriele Grunt, Austria; Giacomo Poleschi, Italy;
Marianne Göthlin, Svezia; Meri Ciuti, Italy

We will concretely practice on:

Role Modelling inclusion and cooperation

Addressing conflicts with care

Speaking our honesty and listening with empathy as alternatives to punishment

Caring for yourself even when under pressure

We dream of schools where every child, teacher and person involved in the education system is nourished to flourish, grow and fully express themselves and thus able to contribute to connection and cooperation. For us Nonviolent Communication is one way to make this dream come true.

MUTUAL EDUCATION LABs are uniquely designed to offer both, a structured and open learning environment. The LAB is an opportunity to share, explore and learn together so that in these days you will have the experience of a life-enriching learning community and truly living the values of Nonviolent Communication in an educational setting. We have offered LABs on an European level since 2010, in different countries and with a variety of topics where NVC can contribute to/in education.
