- Although you will get the possibility to deposit funds, we strongly suggest to complete your application with ID verification first. Without the verification, your account will remain 'pending' and you will not be able to trade.

- To complete your ID verification, you need to upload your 'Proof of Identity' and 'Proof of Address' as instructed. This process could take up to 1 day to be completed.

- Once your account has been confirmed, you will receive an e-mail with your Trading Account credentials (like below); and you can view your account on your dashboard.

- You can deposit funds using many alternatives on the platform, by choosing the option from the left bar menu.
