thermopad

Keeps you warm!

Thermopad is a leading provider of active charcoal-based warmers in Germany. The heating pads are made up of natural materials like charcoal and powdered iron. Through oxygen compound the powdered iron heats up automatically. Comfortable heat for up to twelve hours.

Natürliche
Wärme
Natural heat

WE KEEP YOU WARM ALWAYS. ANYWHERE.

- constant warmth for many hours
- no pre-heating necessary
- comfortable and light
- All products come in practical table-top displays.
- The entire product range can be presented in a floor display unit, available separately.
- application and safety instructions in different languages (DE, EN, FR, IT)

BODY WARMER – ADHESIVE

Art.-No. 78030 / GTIN 4260150780306

The body warmer comes with a special textile adherend and can be applied to the clothes at any part of the body. The heat patch with its comforting warmth is the ideal companion for the cold days.
