as individual
as you.

A SWISS COLOR
BRAND

INNOVATIVE COSMECEUTICALS

Derma SR active ingredients are free from:

- PARABENS
- PARAFFINES
- MINERAL OILS
- DYES
- SILICONES
- ANIMAL TESTING

Highest quality active ingredients cosmetics

In recent years, we have researched and developed new products – with a focus on manufacturing without critical ingredients. It is important to us to offer our customers high-quality products. The result of this intensive development is a revolutionary cosmeceutical product line that delivers immediate and lasting results. The products are suitable for conventional cosmetic facial treatments as well as for apparative cosmetics (dermaneedling, radio frequency).

Perfectly balanced ingredients such as high-quality hyaluronic acid combinations always guarantee first-class treatments and satisfied customers as a result. Our new creams are based on a skin-identical base, the DMS® (Derma Membrane Structure). The DMS® acts like a surface protection system. Perfect for the damaged and weakened lipid barrier. The skin recognizes this

base as its own structure and absorbs it immediately. The revolutionary Derma SR products are recommended by Dr. Stefan Riml, a renowned plastic surgeon from Austria, and by international Derma Clinics (South Africa, Chile, Finland, Emirates, Austria, Germany, Switzerland). We wish you all the best and every success with these revolutionary products!

Visibly highly effective

Treatment types

- 1 **ANTI-AGING**
All products consist of specially matched ingredients that improve the condition of the skin during the treatments. Immediate effectiveness is demonstrated by good tolerability and noticeable velvety soft skin. The hygienic airless dispenser system in modern design is made of sustainable raw materials.
- 2 **EYES**
Targeted treatment against water retention, swelling and dark circles
- 3 **ACNE**
Removes impurities and leads to deep pore cleansing, the balance of the skin is restored
- 4 **HYPER PIGMENTATION**
Pigment balancing or removal of unwanted pigment irritations
- 5 **COUPEROSE**
Redness is reduced, the complexion is evened out; strengthens the capillaries and provides a firmer matrix structure
- 6 **SCARS**
Relaxation and visual improvement of the affected tissue
- 7 **HAIR VITALIZATION**
Strengthening of growth, improvement of hair quality

Treatment steps

For each of the following treatment steps, different products are available to you as professional care and home care.

| Treatment steps | | Page | | PRO | | Professional Care | | HOME | | Home Care | |
|----------------------------------|---|------|--|------------------------------|--------------------------|-------------------------|--------------------|--------------------------|------------------------|-----------------------------|----------------------|
| 1. CLEANSING | The cleansing products are equally suitable for professional use and home care. | 6 | | Pure Gel Cleanser | Active Skin Tonic | Pure Gel Cleanser | Active Skin Tonic | Gentle Cream Cleanser | Active Skin Tonic | | |
| 2. DEEP CLEANSING | The application of a Derma SR peeling requires specialist knowledge and may only be used by trained personnel! | 8 | | Glycolic Exfoliator 20% | Anti-Pigment Exfoliator | pH Neutralizer | | | | | |
| 3. ACTIVE SUBSTANCE SERUM | Serums and essences mainly differ in the intensity of the active ingredients. While high-dose serums are specially designed for professional use, essences extend the home care range for customers. | 10 | | Blemish Control Serum | Anti-Aging Serum | Tissue Firming Serum | Eye Expert Serum | Scar Relaxing Serum | Anti-Pigment Serum | Couperose Control Serum | Hair Vitalizer Serum |
| 4. MASK | The complexity of the application distinguishes professional from home care masks. | 16 | | Detox Charcoal Peel off Mask | Anti-Aging Peel off Mask | Purifying Silver Mask | Sensitive SOS Mask | | | | |
| 5. CREAM & FLUID | Creams and fluids are the heart of Derma SR and convince with their extremely skin-compatible DMS®-base as well as a wide range of home care products for every skin type. | 20 | | Balance Mattifying Fluid | Vitamin C Repair Fluid | Balance Hydrating Cream | Rich Firming Cream | Night Regenerating Cream | Vitamin C Repair Fluid | Retinol Night Renewal Fluid | Eye Lift Cream |
| 6. SCARS | Relaxation and visual improvement of the affected tissue | 26 | | | | | | Instant Lift Fluid | Scar Repair Cream | UV Skin Protection Cream | |
| 7. HAIR VITALIZATION | Strengthening of growth, improvement of hair quality | 28 | | | | | | | | | |

Cleansing

Proper cleansing of the skin is the best preparation for effective absorption of active ingredients and intensive deep treatment.

The products in this line allow gentle but deep cleansing of the skin as a first step towards a fresh, clear and pure skin appearance without unnecessarily straining the skin barrier. The matching home care products in various sizes for further treatment at home are particularly recommended.

Pure Gel Cleanser

Cleansing gel to balance the pH value of the skin. The skin is completely cleansed by mild surfactants. Due to the mild formula, the application is suitable for all skin types. Ideal for the daily removal of make-up.

Skin type
All skin types

Main active ingredients

- Mild surfactants for gentle skin cleansing

PRO Art. No. 31100 200 ml
HOME Art. No. 30100 150 ml

Active Skin Tonic

Intensive, pore-deep cleansing. Frees the skin from flakes, excess sebum and other deposits. Active prevention of pimples, pustules and blackheads. Herbal extracts clear, cool and refresh the skin.

Skin type
All skin types, especially effective for dry and stressed skin

Main active ingredients

- Witch hazel and camomile extracts have a calming and refreshing effect
- Nettle extracts and essences from green tea relax the skin
- Pentylene Glycol moisturizes

PRO Art. No. 31101 200 ml
HOME Art. No. 30102 150 ml

Gentle Cream Cleanser

Dissolves uppermost cornifications of the skin and provides for a deep pore clarification. It refreshes, conditions and mineralizes the skin. Suitable for daily make-up removal.

Skin type
All skin types

Main active ingredients

- Vitamin C supports the absorption of moisture and has a firming effect
- Enzyme Papain acts like a natural peeling

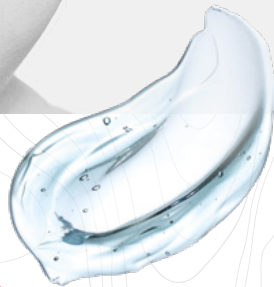

HOME Art. No. 30101 150 ml

Deep cleansing

Professionally performed peelings help the skin to look radiant and can already serve as a prevention of various skin problems. Dead skin flakes are removed manually or with the help of equipment, which immediately makes the skin look fresher.

Exfoliating the skin allows the targeted use of high-quality active ingredients serums.

Glycolic Exfoliator 20%

Peeling based on 20% glycolic acid, obtained from sugar cane. Removes existing cornifications of the skin and is especially recommended for firm skin structures to relax the skin and prepare it for further treatment. pH value: 1.6.

Only to be used in combination with pH Neutralizer!

Always stay with the customer during the peeling. In case of excessive skin reaction, such as redness, cleanse immediately with pH Neutralizer.

Skin type
All skin types

Main active ingredients
■ Glycolic acid from sugar cane

PRO Art. No. 31200 50 ml

Anti-Pigment Exfoliator

Keratolytic peeling to improve the skin's appearance in cases of severe pigmentation disorders. The pH value of this cosmetic can be regulated particularly precisely with high-quality citric acid. pH-value: 1.6 - 1.8.

Only to be used in combination with the pH Neutralizer!

Always stay with the customer during the peeling. In case of excessive skin reaction, such as redness, cleanse immediately with pH Neutralizer.

Skin type
Skin prone to pigment irritation

Main active ingredients
■ Lactic acid for the removal of cornifications
■ Citric acid for pH regulation
■ Glycolic acid for the removal of cornifications
■ Diacetyl Boldine, an innovative active ingredient to combat pigment irritation

PRO Art. No. 31201 50 ml

pH Neutralizer

For neutralizing all acids (fruit acids, glycolic acids, salicylic acids, lactic acid). With its alkaline composition, the product interrupts the acid reaction on the skin, which manifests itself by slight blistering. It also contains panthenol to soothe the skin.

After each acid treatment, protect the skin from direct sunlight for several days with high-quality sun protection creams!

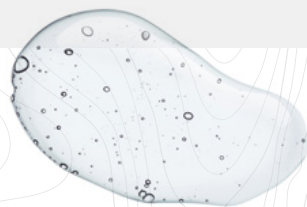

Main active ingredients
■ Panthenol to soothe the skin
■ Bicarbonate (sodium carbonate), a neutralizing agent for basic acids

PRO Art. No. 31202 75 ml

Active ingredients serums

By using the appropriate active ingredients serums, you will be able to counteract a wide variety of skin problems. This can be achieved above all through high-quality ingredients such as specially adapted hyaluronic acid combinations. This way, you can define facial contours, prevent wrinkles and loss of elasticity, clear impure skin as well as improve couperose, rosacea or pigmentary shifts.

PRO

Blemish Control Serum

Intensive serum especially for skin impurities. This product based on oleanolic acid, panthenol and extracts of various medicinal herbs actively combats acne, pustules and blackheads. With its preventive and balancing effect, the result is an even and pure complexion.

Skin type

Impure and oily skin, combination skin

Main active ingredients

- Hispagel for binding moisture
- Pentylene glycol as antibacterial moisturizer
- AC NET as a combination of active substances, including oleanolic acid, to combat bacteria and normalise sebum production
- Panthenol for the regenerative stimulation of cell division
- Herbapurifins as an antibacterial, anti-inflammatory and anti-itching active ingredient

PRO Art. No. 31300 5 x 4 ml ampoules

PRO

Anti-Aging Serum

For the proven firming, tightening and remodelling of the facial contour, as well as for the reduction of fine wrinkles. The immediate effect is reflected in a fresh, cushioned and smooth skin appearance. The contained hyaluronic acid combination actively moisturizes and enhances its effect through the included matrixyl.

Skin type

Mature, dehydrated skin

Main active ingredients

- Hyaluronic acid combination for protection and care with long-term deep moisture
- Diosgenin and genistein as hormone-like active ingredients for tightening the contours of the face and cheeks
- Matrixyl as tissue-strengthening, collagen-stimulating substance
- Argireline and Syn*ake as wrinkle-reducing active ingredients complex

PRO Art. No. 31301 5 x 4 ml ampoules

PRO

Tissue Firming Serum

Special serum with hyaluronic acid components as a booster for more moisture. With this preparation, a tighter contour is achieved, especially in the cheek area. At the same time, the entire skin appears firmer and refreshed.

Skin type

Mature skin with loss of elasticity

Main active ingredients

- Hyaluronic acid combination as moisture storage
- Vegeseryl, a protein extracted from the soy bean, as additional moisture storage, recommended for the cheek contour

PRO Art. No. 31302 5 x 4 ml ampoules

Eye Expert Serum

Intensive active serum for the eye area. Eye circles, bags under the eyes and dark pigment deposits are counteracted and the skin is given back its lost freshness. Swelling caused by water retention is reduced and fine lines are concealed.

Skin type
All skin types

Main active ingredients

- Matrixyl with tissue strengthening effect for improved collagen production
- Hesperidin methyl chalcone, chrysin, N-hydroxysuccinimide and dipeptide VW as an active ingredient complex reduces bags under the eyes and dark circles
- Eyseliss as a decongestant active ingredient to improve skin elasticity
- Haloxyl as a pigment reducing substance against dark circles and discoloration

PRO Art. No. 31303 5 x 4 ml ampoules

Scar Relaxing Serum

Balancing preparation for the relaxation of scarred tissue. In addition, it has an immune-strengthening and detoxifying effect, whereby the scarred tissue is better supplied and looks relaxed. High-quality hyaluronic acid brings the skin back into balance.

Skin type
Scarred skin

Main active ingredients

- Madecassoside (highly dosed) as collagen-building active ingredient
- Spirulina Glycerin, an immune-boosting algae extract with antioxidant, anti-inflammatory properties
- Panthenol (highly dosed) to stimulate the formation of new cells
- Hyaluron combination as an ideal moisturizer

PRO Art. No. 31304 5 x 4 ml ampoules

Anti-Pigment Serum

Highly effective anti-aging preparation based on vitamin C to remove and prevent unwanted pigment deposits. Particularly effective in combination with apparative cosmetics over a period of at least six weeks.

Skin type
Skin prone to pigmentary irritation

Main active ingredients

- Vitamin C with pigment lightening effect
- Albatin for long-term stabilisation of melanin production and active removal of existing pigmentation disorders

PRO Art. No. 31305 5 x 4 ml ampoules

Couperose Control Serum

For the improvement of existing couperose symptoms and prospective rosacea. Especially redness is actively alleviated with this product and the skin appearance appears evenly adjusted. The combination of hyaluron and madecassosides causes an increased storage of moisture in the skin. The matrix is strengthened and thus permanently consolidated.

Skin type
Skin prone to couperose and rosacea

Main active ingredients

- Hyaluronic acid combination as a moisturizer and long-lasting protection for the skin surface
- Ambora extract as a peptide-inhibiting substance against reddened skin areas
- Madecassoside (highly dosed) as a collagen-building active ingredient

PRO Art. No. 31306 5 x 4 ml ampoules

Hair Vitalizer Serum

For thinning and weak hair. Perfectly balanced active ingredients regenerate the hair root and activate inactive hair follicles. Hair follicles are demonstrably supported in their growth potential. The contained pantothenic acid cares for the scalp and has a calming effect. Hyaluronic acid accelerates cell regeneration and stores moisture.

Main active ingredients

- Capilia Longa, a turmeric extract, for activating inactive hair follicles
- Hyaluronic acid combination as moisturizer
- Pantothenic acid to stimulate cell renewal

PRO Art. No. 31307 5 x 4 ml ampoules

Hygiene Cartridges

Special hygiene cartridges have been developed for Dermaneedling treatments, which stand out above all due to the screw mechanism. This mechanism allows the hygiene cartridge to be fixed exactly in the handpiece and thus allows safe working with more pressure.

Always use the corresponding Derma SR hygiene cartridge in combination with the Derma SR technique and the serums of the Derma SR beauty treatment. This has the advantage that when you apply the serums to the client's skin, you can work with the hygiene cartridge more easily.

The active serums also penetrate deeper into the skin and support the regeneration effect that the Dermaneedling method aims for in a positive and long-lasting way.

Details on page 28.

Pure Hyaluronic Essence

Thanks to the high-quality and moisturizing hyaluronic acid combination, Pure Hyaluronic Essence optimizes the benefits of youthful looking skin. The essence provides more elasticity and firmness of the skin, wrinkles are visibly smoothed. Above all, the skin's moisture storage capacity is stimulated, thus achieving a demonstrably cushioning effect. A true Anti-Aging Booster Serum.

Skin type

Mature, dehydrated and sensitive skin

Main active ingredients

- Hyaluronic acid combination as a moisture booster with anti-aging effect

HOME Art. No. 30300 15 ml

Eye Lift Essence

Intensive essence for the eye area. Rings, bags and dark pigment deposits around the eyes are combated and the skin regains its lost freshness. Swelling caused by water retention is reduced and fine lines are concealed. The hyaluronic acid combination develops its long-term effects and ensures a long-lasting high-quality care of the skin.

Skin type

All skin types

Main active ingredients

- Matrixyl with tissue strengthening effect for improved collagen production
- Hesperidinmethylchalcone, chrysin, N-hydroxysuccinimide and dipeptide VW as an active ingredient complex reduce bags under the eyes and dark circles
- Eyeliss as a decongestant substance to improve skin elasticity
- Haloxyl as a pigment-reducing agent against dark circles and discoloration

HOME Art. No. 30301 15 ml

Blemish Control Essence

Skin impurities are actively combated with this product based on oleanolic acid, panthenol and a special combination of various medicinal herbs. With its preventive and balancing effect, it achieves a more even and clean complexion.

Skin type

Impure and oily skin, combination skin

Main active ingredients

- Hispagel (highly dosed) for binding moisture
- Pentylene glycol as antibacterial moisturizer
- AC NET as a combination of active substances, including oleanolic acid, for combating bacteria and normalization of sebum production
- Panthenol as a care substance for the regenerative stimulation of cell division
- Herbapurifins as an antibacterial, anti-inflammatory and anti-itching active ingredient

HOME Art. No. 30302 15 ml

Anti-Pigment Essence

Highly effective anti-ageing preparation based on vitamin C to remove and prevent undesirable pigment deposits. Particularly effective in combination with apparative cosmetics over a period of at least six weeks.

Skin type

Skin prone to pigmentary irritation

Main active ingredients

- Vitamin C with its pigment removing effect to create an even skin appearance
- Albatin for long-term stabilisation of melanin production and active removal of existing pigmentation disorders

HOME Art. No. 30303 15 ml

Couperose Control Essence

Intensive serum especially for the improvement of existing couperose symptoms and future rosacea. Especially redness is actively alleviated with this product and the skin appearance appears evenly adjusted. The combination of hyaluronic acid and madecassoside causes an increased storage of moisture in the skin.

Skin type

Skin prone to couperose and rosacea

Main active ingredients

- Hyaluronic acid combination as a moisturizer and long-lasting protection of the skin surface
- Ambora extract as a peptide-inhibiting agent against couperose and reddened skin areas
- Madecassoside (highly dosed) as collagen-building active ingredient

HOME Art. No. 30304 15 ml

Hair Vitalizer Essence

Intensive preparation especially for thinning and weak hair. Perfectly balanced active ingredients stimulate the hair root and activate inactive hair follicles. The contained pantothenic acid cares for the scalp and has a calming effect. Hyaluronic acid accelerates cell regeneration and stores moisture. Hair follicles and their growth potential are demonstrably supported.

Main active ingredients

- Capilia Longa, a turmeric extract, for activating inactive hair follicles
- Hyaluronic acid combination as moisturizer
- Pantothen

HOME Art. No. 30305 15 ml

Masks

Another highlight of the beauty treatment is the application of a high-quality mask for customers. Creating a pleasant ambience is just as important as choosing the right mask.

After the treatment with the rich active ingredients serums, soothing masks calm and relax the skin.

Detox Charcoal Peel off Mask

Purifying peeling mask made of alginate (guluronic acid) and charcoal of the highest quality. Thanks to its porous structure, charcoal cleanses the skin deep into the pores by absorbing all waste products and impurities into its cavities. This regulates sebum production and is ideal for stressed skin.

Charcoal has antioxidant properties and protects against free radicals, which are mainly responsible for skin aging. The peeling mask is suitable for all skin types, is recommended for combination skin as well as oily, impure and stressed skin.

Skin type

All skin types

Main active ingredients

- Algin has a moisturizing and antibacterial effect
- Charcoal shows an antioxidant, cleansing effect

PRO Art. No. 31400 500 g

Anti-Aging Peel off Mask

Basis of this mask is the kelp algae from the North Sea. The resulting alginic acid is an anionic polysaccharide which is extracted from the cell wall of the brown algae. It contains iodine, potassium, magnesium, calcium and iron in balanced amounts as well as salts and metals whose antibacterial activity is known.

The aim of the mask is to optimize the skin's natural water balance and activate the skin's own protective barrier. Thallasine, a natural extract of Lola Implexa algae, improves collagen synthesis. A pleasant, creamy texture makes the skin soft. Free of chemical additives, emulsifiers and preservatives.

Skin type

All skin types

Main active ingredients

- Kelp algae (alginic acid) has a moisturizing and antibacterial effect
- Thallasine has a strong moisture-binding effect

PRO Art. No. 31401 500 g

What is hyaluronic acid?

The main ingredient of all our Derma SR cosmeceuticals is hyaluronic acid. It is a naturally occurring component of various types of connective tissue in the body, which can bind very well with water. Hyaluronic acid has a proven anti-wrinkle effect and is indispensable in anti-aging treatments.

The combination of hyaluronic acid and water produces a kind of natural gel. For example, one gram of hyaluronic acid can bind up to six litres of water. Thus it acts as a water reservoir and provides elasticity and resilience.

Another great advantage is that it hardly develops any side effects or allergies.

In order to control the intensity and effect of Derma SR products, we use four hyaluronic acid fractions:

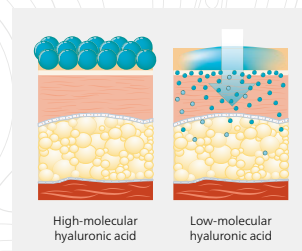

HYA1 A high-molecular hyaluronic acid, which provides a wonderfully gelatinous yet soft consistency. It nourishes the skin surface, the skin appears fresh and rosy.

HYA2 This hyaluronic acid fraction goes a little deeper and unfolds its effect on the epidermis. The moisture can thus be better absorbed and stored by the skin.

HYA3 This hyaluronic acid fraction reaches the cell forming layer, the water loss can be reduced and various signal peptides ensure a balanced moisture balance.

HYA4 In combination with HYA3, HYA4 unfolds its full potential in the depth and forms a long-term depot. The result is an elastic, refreshed and hydrated skin.

All four hyaluronic acid fractions are combined into one formula and form the basis of our serums and essences. Further highly dosed, exclusive active ingredients and active complexes are added to round off the beauty concept and actively counteract aesthetic problems.

Purifying Silver Mask

Gentle cream mask based on clay in combination with high-quality silver. Inflammation is soothed and further inflammatory processes are prevented. Its decongestant effect additionally stimulates the regeneration of the skin. Toxins are bound and removed by the white clay contained in the mask.

Skin type

Impure and sensitive skin

Main active ingredients

- White clay has a purifying, decongesting and calming effect
- Panthenol (highly dosed) as an anti-inflammatory agent
- Microsilver as special silver essence against inflammatory processes of the skin

HOME Art. No. 30400 50 ml

Sensitive SOS Mask

Cream mask based on white clay absorbs and reliably removes waste products. This mask has a cooling, purifying effect against redness and inflammatory processes. Also suitable for calming after too much sun.

Skin type

All skin types, also for reddened, swollen and sensitive skin

Main active ingredients

- White clay has a purifying, decongesting and calming effect
- Dermasooth, an extract of royal herb, for the improvement of the skin barrier
- DIAM-Oleoactiv, an essence from the cork oak and combined with coconut oil, to increase the amount of collagen

HOME Art. No. 30401 50 ml

Creams & Fluids

Derma SR Creams & Fluids support the skin in building up a care effect and form a protective shield against harmful external influences such as free radicals and sun rays.

Thanks to the high-quality serums and essences in combination with the DMS® cream base, countless skin problems are visibly improved. Due to the optimal supply of tonus and turgor the skin shows a rosy complexion.

DMS® cream base

We focus on the preservation of the natural skin function through the DMS® base!

A cream base which is free of emulsifiers and thus corresponds to the skin's own sebum. It acts like an own surface protection system, which can rebuild a damaged lipid barrier, as the skin accepts it like its own skin structure. The creams penetrate wonderfully, integrate into the intercellular lipid structures and regenerate disturbed barrier functions.

An effectiveness study showed that DMS®-creams increase the skin hydration in the long term and still have a caring and protective effect 72 hours after application. The skin-like base alone already positively improves the barrier function.

In the DMS® base, skin-identical substances are incorporated as cream base:

- Vegetable triglycerides and vegetable squalane (extracted from olives)
- Ceramides (extracted from yeast)
- Cholesterol and phospholipids (synthetically adjusted)

This not only creates an identical basis, but also an extremely compatible skin structure that ensures a healthy skin texture.

Without the DMS® base, the skin has no proper protection.

Intact membrane structure in balance with DMS® structure.

Balance Mattifying Fluid

Day & Night Fluid

Slightly mattifying face fluid. A healthy skin balance is achieved by the contained DMS® structural base. The combination of high-quality hyaluronic acid and matrixyl has a skin tightening effect and can thus counteract the first signs of skin aging.

Skin type

Oily skin, combination skin

Main active ingredients

- Hyaluronic acid combination as moisturizer
- Matrixyl improves collagen production in the skin

PRO Art. No. 31500 75 ml  
HOME Art. No. 30500 50 ml

Balance Hydrating Cream

Day Cream

Rich day cream with UVA / UVB protection and vitamin C. DMS® preparations provide the skin with a lot of moisture and leave a healthy skin balance. The skin feels soft and smooth. In addition, the combination of high-quality hyaluronic acid and matrixyl tightens and the skin immediately appears smoother and firmer.

Skin type

Combination skin, dry skin, mature skin

Main active ingredients

- UV protection against sun rays
- Hyaluronic acid combination as a moisturizer
- CAS system of matrixyl, proline and lysine to improve collagen synthesis
- Vitamin C as a highly dosed antioxidant to bind free radicals

PRO Art. No. 31501 75 ml 
HOME Art. No. 30501 50 ml

Vitamin C Repair Fluid

Day & Night Fluid

Rich facial fluid with highly dosed vitamin C (20 %). Counteracts pigment changes and leaves an even and fresh skin appearance. The hyaluronic acid contained in the product moisturises, penetrates deep into the skin and reduces lines and wrinkles. Spirulina, an algae extract, has an antioxidant effect and protects the skin.

Skin type

All skin types

Main active ingredients

- Vitamin C as a highly dosed antioxidant for binding free radicals
- Hyaluronic acid combination as moisturizer
- Spirulina glycerine, from the spirulina algae, with antioxidant, anti-inflammatory effect

PRO Art. No. 31502 75 ml 
HOME Art. No. 30503 50 ml

Rich Firming Cream

Day Cream

Rich day cream with UVA / UVB protection. This protective and firming day cream provides the skin with elasticity and resilience thanks to the high-quality hyaluronic acid and matrixyl, thus improving tissue firmness. The skin feels smoother and more supple.

Skin type

Dry skin, mature skin

Main active ingredients

- UV protection against sun rays
- Hyaluronic acid combination as a moisturizer
- CAS system of matrixyl, proline and lysine to improve collagen synthesis
- Vitamin C as a highly dosed antioxidant for binding free radicals

HOME Art. No. 30502 50 ml 

Night Regenerating Cream

Night Cream

Grape seed oil has a strong antioxidant effect and supports the natural repair process during the night. The combination of camellia oil, diosgenin and panthenol moisturizes, restores freshness and vitality to the skin. Symptoms of fatigue are thus alleviated. The contained hyaluronic acid penetrates deep into the skin and reduces lines and wrinkles. Can also be used during the day for very dry skin.

Skin type

Mature skin

Main active ingredients

- Grape seed oil with antioxidant effect
- Camellia oil to reduce small wrinkles
- Diosgenin regenerates the skin
- Panthenol as care substance of the skin barrier
- Pomegranate seed oil improves the complexion
- Madecassoside inhibits inflammatory processes

HOME Art. No. 30504 30 ml 

Retinol Night Renewal Fluid

Night Fluid

Retinol stimulates the skin's own collagen production and brings damaged skin back into balance. Retinol also improves wrinkles and pigmentation disorders. It inhibits glycation (saccharification) in the skin, which contributes to the development of wrinkles and skin aging. The vitamin A it contains has an antioxidant effect and protects the skin from harmful environmental influences.

Skin type

Mature skin

Main active ingredients

- Retinol as an overnight collagen boost
- Vitamin A as an antioxidant for more youthfulness

Pregnant or breastfeeding women are advised not to use this product!

HOME Art. No. 30505 30 ml 

HOME

HOME

HOME

Eye Lift Cream

Day Cream

For tightening the eye area. Exclusive oils provide it with valuable nutrients and create a smooth feeling. The hyaluronic acid contained supports the absorption of moisture. Symlift immediately smoothes small wrinkles. Extensive UVA and UVB protection prevents premature ageing of the skin.

Skin type

All skin types

Main active ingredients

- UV protection against harmful UVA/UVB rays
- Symlift as a natural combination of active ingredients for moisture regulation

HOME Art. No. 30506 15 ml

Instant Lift Fluid

Lifting Fluid

An incredibly fast and effective lifting fluid for the eye area and forehead. Small wrinkles and lines disappear in just two minutes, the skin is plumped up and tightened. Puffiness, bags under the eyes and dark circles around the eyes are reduced.

Skin type

All skin types

Main active ingredients

- Verek acacia extract for significant wrinkle reduction
- Helixan as a natural active ingredient from the snail secretion to improve collagen and elastin synthesis

HOME Art. No. 30507 5 ml

Scar Repair Cream

Regenerating Cream

A regenerating cream for scars. DMS® products and hyaluronic acid provide the skin with a lot of moisture and support the natural barrier function of the skin. The finely tuned microsilver promotes the rapid regeneration of the skin.

Skin type

Scarred skin, after scar treatment

Main active ingredients

- Matrixyl as a tissue-strengthening agent for improved collagen production
- Microsilver as a high-quality silver essence with anti-inflammatory effects

HOME Art. No. 30508 5 ml

HOME

UV Skin Protection Cream

Day Cream

An anti-aging sun cream for the face, with SPF 30, containing the active ingredient Venuceane, which reliably protects against harmful UVA/UVB rays. This cream protects the skin from light damage and the resulting signs of aging.

Skin type

All skin types

Main active ingredients

- Venuceane® active ingredient with biotechnological protective effect, supports the regenerative capacity of the skin.
- Panthenol has a regenerating and soothing effect

HOME Art. No. 30509 50 ml

Effective sun protection

When sunlight hits the skin, happiness hormones, so-called endorphins, are released. But direct sunlight also has its downsides, because too much of it causes stress for the skin. Therefore, it is very important to be well protected against the sun.

The UV Skin Protection Cream, a product specially developed for us, is produced with the latest available technologies for even more reliable protection, intensive care and better tolerance.

UVA rays

Are responsible for tanning, but also for skin aging as well as for an increased risk of skin cancer and the occurrence of sun allergies.

UVB rays

They enable the skin to tan and cause sunburn without adequate protection – i.e. considerable damage to the skin. The amount of UVB rays varies depending on the time of year and day, altitude above sea level and latitude. The SPF of a sun product indicates the intrinsic protection value against UVB rays.

The following ingredients, which are controversially discussed, are NOT CONTAINED in our UV Protection Cream:

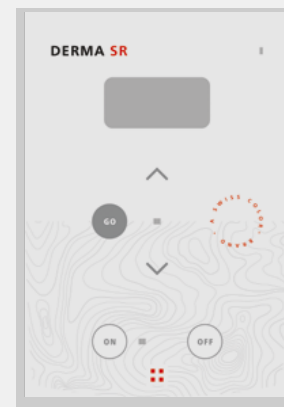

- Hormone-active sun filters
- Parabens
- Polyethylene glycols (PEGs)
- Artificial colourings
- Silicones

Dermaneedling^{PRO}

Dermaneedling is a promising, minimally invasive cosmetic treatment in which the skin is activated by means of a targeted micromassage. This effective method is used to increase percutaneous collagen induction and transdermal absorption of active ingredients.

The self-healing process corrects existing skin damage and the procedure also improves the absorption of active ingredients.

Derma SR Liner

The Derma SR Liner's adjustable number of needle punches per second makes it possible to treat problematic skin effortlessly. The device is certified, tested and meets all hygienic requirements. It includes handpiece, control unit, adapter and foot pedal.

- Including Derma SR handpiece
- Control unit, adapter and foot pedal
- Adjustable speed
- Easy to operate and clean
- 2-year product warranty and service

Art. No. 1396

Derma SR handpiece

The Derma SR handpiece can also be used in combination with the Swiss Liner Advanced and the Swiss Liner Infinity device.

Please note that the Derma SR handpiece can only be used with the corresponding hygiene cartridges, Permanent Make-up Classic hygiene cartridges are not compatible!

- Little vibration
- Quiet for more comfort
- Module with special screwing mechanism
- Comfortable use
- Precisely adjustable depth
- Ergonomic shape of the hand piece
- 2-year warranty

Art. No. 1395

Hygiene Cartridges

- Screw mechanism
- Precise fixing of the hygiene cartridge in the handpiece
- Safer working even with more pressure

| | derma 5 point shader twist modul Art. No. 1199_DSR 15 pc |

Detailed information on page 28.

Stamping & rhombus technique

The following hygiene cartridge types are used for the treatment of larger skin areas via the stamping or rhombus technique.

derma 18 point needling twist modül
Art. No. 1176_DSR 10 pc

This module consists of a flexible hygienic plate with 18 stimulation points that actively stimulate the skin. It is made entirely of medically tested plastic and has the advantage that you can use it with both the stamp and the rhombus technique.

- Treatment types**
- Anti-aging, especially on the neck, décolleté and around the eyes
 - Couperose
 - Hair vitalization

derma 6 point needling twist modül
Art. No. 1175_DSR 10 pc

This module consists of a flexible hygienic plate on which very fine metal needles are fixed. Due to the flexibility of the hygiene plate, even hard-to-reach skin areas can be treated evenly and easily. This simplifies the application of the different regions. Only use with the stamping technique.

- Treatment types**
- Pigment irritations
 - Anti-aging, especially on the neck and décolleté
 - Hair vitalization

Punctual treatment

The needles of the following hygiene cartridge types are made of finely ground, stainless steel and are designed for punctual treatment of the skin.

derma 1 point nano² twist modül
Art. No. 1196_DSR 10 pc

- Treatment types**
- Small scars
 - Pigment irritations

derma 3 point micro twist modül
Art. No. 1197_DSR 15 pc

- Treatment types**
- Acne scars
 - Areola
 - Pigment irritations

derma 4 point flat twist modül
Art. No. 1198_DSR 15 pc

- Type of treatment**
- Stretch marks

derma 5 point shader twist modül
Art. No. 1199_DSR 15 pc

- Treatment types**
- Hair vitalization
 - Larger scars

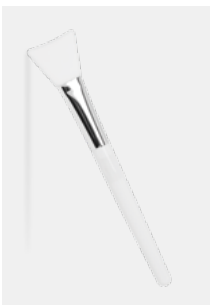

Accessories

White dress

Practical, stylish and easy to clean! Wrap-around tunic in white. Available in sizes S to L.

Art. No. 2009_5
Art. No. 2009_M
Art. No. 2009_L

Cosmetic spatula

Ideal for applying serums and masks.
Art. No. 1189

Mixing bowl

Art. No. 1186

Product matrix

In this overview you will find the suitable product for the respective skin type or condition.

| | | SKIN TYPE | | | | | SKIN CONDITION | | | | | | | | | | | |
|----------------------------|--|----------------|------------------|-----|-----------|--------------|----------------|--------|----------|--------------|-----------|---------|----------|--------------------|-----------|---------|---|---|
| | | All skin types | Combination skin | Dry | Low-lipid | Greasy, oily | All | Impure | Stressed | Mature, limp | Sensitive | Scarred | Reddened | Pigment irritation | Couperose | Rosacea | | |
| Cleansing | Pure Gel Cleanser | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ | ■ |

Active ingredients glossary

Acacia Senegal Gum

Viscosity regulator of vegetable origin, is considered recommendable, acacia gum is a dried plant sap of the acacia tree, resinous substance consists of long-chained, branched carbohydrates, is used as a skin binding and thickening agent and has a skin tightening effect.

Acetyl Hexapeptides-8

Peptide, fragment of a substrate of botulinum toxin as synthetic anti-wrinkle agent.

Acetyl Tetrapeptide-3

Peptide as organic-chemical compound with skin-protecting function.

Acmella (Flower Extract)

Extract obtained from the blossom of the brazil cress with skin caring and hair conditioning properties.

Acrylates / C10-30 Alkyl Acrylate Crosspolymer

Synthetic compound on acrylate basis with special property of a long degradation process/long durability.

Agastache Mexicana Flower/Leaf/Stem Extract

Extract from the blossoms, leaves, stems and stalks of the Mexican giant hyssop with pronounced skin protecting and skin conditioning properties.

Alcohol

Matting and de-oiling effects on the skin, product appears weightless and light as a feather on the skin, solvent and preservative, improves the absorption capacity of the skin.

Alcohol denat

Denaturated alcohol improves shelf life and fat solvents, extracting agent for natural extracts.

Aleurites Moluccana Nut Oil

Kukui nut oil, vegetable oil extracted from the seeds of the kukui nut tree, skin tightening and moisture regulating effect, high vitamin A and vitamin E content, strengthens connective tissue, rich in unsaturated fatty acids, regeneration of the skin barrier.

Algin

Extracted from brown algae, promotes viscosity and gelling, emulsifier and thickener.

Allantoin

Acts against hyperhidrosis and skin irritation, accelerates cell building, cell formation and cell regeneration, calms the skin, regenerating, but no antiseptic properties.

Aminoethyl Phosphinic Acid

Anthemis Nobilis Flower Water steam distillate from the Roman chamomile has skin caring and neutralizes unwanted inherent odour of the cosmetic.

Aqua (Water)

Basic component of cosmetics, especially emulsions can consist of up to 90% water.

Argania Spinosa Kernel Oil

Argan oil is rich in vitamin E and fatty acids, calming, moisturizing and strengthening effects.

Arginine

Proteinogenic amino acid, lowers blood pressure, protects blood vessels.

Ascorbyl / Cholesteryl Phosphates

Antioxidant of synthetic origin, is considered recommendable, has a skin-caring effect, inhibits oxidation processes caused by oxygen and thus the decomposition and spoilage of ingredients.

Bakuchiol

Plant extract from the Indian Babchi plant as a remedy for skin problems, combats wrinkles and skin impurities.

Benzoic Acid

Protects cosmetic products against microbial spoilage, reduces undesirable inherent odour or taste of the product, reduces the density of cosmetic products by swelling.

Benzyl Alcohol

Natural preservative, which occurs for example in ylang-ylang or jasmine and inhibits the growth of bacteria and fungi.

Beta-Glucan

Belongs to the vegetable dietary fibres and has a positive influence on the immune system, for defence against harmful substances, promotes regeneration in case of skin irritations.

Biosaccharides Gum-1

Thickening agent and fermentation product based on sorbitol, is regarded as recommendable, skin caring.

Butylene Glycol

Solvent of synthetic origin, increases or reduces viscosity, has a skin caring effect, reduces or inhibits unwanted inherent odour of the product, preserves skin moisture and binds moisture in cosmetic products.

Butylmethoxydibenzoylmethanes

Protects skin and hair from harmful UV radiation, UV absorber, also protects the cosmetic product from UV light.

Butyrospermum Parkii (Shea) Butter

Plant extract from the fruits of the African shea tree, has an antioxidant, calming and smoothing effect, strongly refatting, cell protecting, regulates the moisture balance of the skin.

C12-C15 Alkyl Benzoate

Keeps the skin in good condition, smoothes and softens the skin, inhibits the growth of microorganisms.

Calcium Pantothenate

Also called pantothenic acid, is a water-soluble vitamin of the B-vitamin group, important for metabolism.

Camellia Sinensis Leaf Extract

Extract from the leaves or needles of the tea bush, UV absorber, strengthens the skin, produces a pleasant smell, protects the skin, binds moisture, makes the skin supple, antioxidant and antimicrobial.

Caprylic/Capric Triglycerides

Also called neutral oil, starting basis is palm kernel or coconut oil, non-irritating, easy to apply, quickly absorbed, prevents strong greasing.

Caprylyl Glycol

Moisturizer, cares for the skin and keeps it moisturized, makes the hair easier to comb, smooth, soft and shiny, reduces volume.

Carbomer

Also called polyacrylic acid, viscosity agent, well tolerated by the skin, also applicable on mucous membranes, lowly dosed.

Carnosine

Is a dipeptide of amino acids, acts antioxidant, against skin aging and to prevent wrinkles.

Ceramide 3

Lipid strengthens the skin barrier, soothes wrinkles and protects the skin from moisture loss.

Chamomilla Recutita Extract

Blossom extract from chamomile, has a skin-caring effect and reduces or inhibits the product's own unwanted odour, cares for sensitive, impure or sun-stressed skin.

Charcoal Powder

Charcoal for deep cleansing. Helps against free radicals.

Chrysin

Bioflavonoid as natural plant extract, aromatase inhibiting potential.

Citric Acid

Colourless and water-soluble carboxylic acid, which belongs to the fruit acids; flavouring, antioxidant against premature spoilage of the product.

Cocamidopropyl Betaine

Regulates viscosity, belongs to the group of surfactants and is a washing-active substance, improves the even distribution of the product; hair conditioning, foam-intensifying, cleansing, antistatic.

Cocos Nucifera Oil

Essential oil extracted from the coconut palm, has a skin caring, perfuming effect, reduces or inhibits the product's own odour, has a hair conditioning effect.

Curcuma Longa (Turmeric) Callus Conditioned Media

Conditioned media extracted from turmeric, has an antioxidant, skin caring and skin protecting effect.

Dehydroacetic Acid

Has a preservative effect, protects cosmetic products from microbial spoilage.

Diacetyl Boldine

Active ingredient from the bark of the boldo tree, has a skin-caring effect, keeps the skin in good condition.

Diaminobutyrol

Synthetic active ingredient, has a skin-caring effect and is regarded as recommendable.

Dioscorea Villosa (Wild Yam) Root Extract

Extract from the rhizomes of the wild yam.

Dipeptides Diaminobutyrol Benzylamides Diacetates

Synthetic peptide with skin care properties, muscle relaxing and wrinkle reducing effects.

Dipeptides-2

Has a similar structure to lipids in the epidermis, which helps to store more moisture.

Enteromorpha Compressa Extract

Algae extract from the green algae, protects the skin from external influences.

Ethyl Ascorbic Acid

Antioxidant of synthetic origin, also called stable vitamin C, protects product from premature spoilage.

Ethylhexyl Triazone

Organic UV filter and UV absorber, protects both the skin and the cosmetic product itself from harmful UV rays.

Glucunolactones

Has a skin-caring effect, binds metal ions, which can have a negative influence on the stability and quality of cosmetic products.

Glycerine

Sugar alcohol and component of the skin's own moisture retention system, well tolerated, has a strong moisture-binding effect, protects and regenerates the skin barrier, increases skin elasticity, soothes skin irritations, works against dry skin.

Glyceryl Behenate

Emulsifier of plant origin, allows binding of oil and water, makes the skin smooth and soft.

Glyceryl polyacrylates

Forms a film on skin, hair or nails, synthetic origin.

Glycine Soybean Protein

Hydrolysed soy protein from the soy bean; film forming, hair conditioning, skin caring.

Glycolic Acid

Colourless and odourless fruit acid, peeling effect, skin caring.

GUM-® Phosphatidylcholine

endogenous lipid, also known as lecithin, occurs naturally in the mucosal layer of the colon, acts as a surfactant, prevents the penetration of bacteria.

1,2 Hexanediol

Solvent of synthetic origin; humectant, viscosity regulator.

Hamamelis Virginiana Leaf Extract

Extract from the magic shrub, has a skin-caring and astringent effect, tightens the skin, compresses the skin surface.

Hesperidene Methyl Chalcone

Flavonoid with protective effect against inflammation and pain.

Hordeum Vulgare Seed Extract

Barleycorn extract, has a skin caring effect and keeps the skin in a good condition.

Hyaluronates

Hyaluronic acid, component of the connective tissue; water-binding, pressure-resistant, lubricant.

Hydrogenated Lecithin

Based on soy lecithin; moisturizing, non-greasy, matting, water-repellent, skin-caring, enables the binding of finely dispersed mixtures of oil and water (emulsion).

Hydrolyzed Rhizobian Gum

Active substance of biotechnological origin; biopolymer, film-forming.

Hydrolyzed Soy Protein

Skin caring, moisturizing, hair conditioning and antistatic.

Hydrolyzed Wheat Protein

Hydrolysed biotechnological wheat germ protein; acts skin caring, hair conditioning and antistatic.

Hydroxyethyl Cellulose

Water-soluble, highly effective thickening and binding agent; transparent, tasteless, pharmaceutical excipient.

Kaolin

White clay, fine-grained, strong sorption abilities, binds liquids, emulsifier, counteracts oily skin.

Lactic Acid

Lactic acid, component of the natural moisturizing system or the acid protective layer of the skin, regulates cornification, light peeling effect, acts against impure skin, hydrating, regulates pH-value, antimicrobial.

Lauryl Glucosides

Very mild, non-ionic sugar tenside, based on coconut fatty acid, has a thickening effect, is recommended.

Lecithin

Fat-like substance, also called phosphatidylcholine.

Lysine

Active accelerator with analgesic effect; basic.

Madecassosides

Extract from tiger grass, ayurvedic effect, traditionally used for regeneration; anti-inflammatory, normalizing, cornification loosening effects, works against redness and dandruff

Magnolia Grandiflora Leaf Extract

Magnolia leaf extract, skin caring, is considered recommendable.

Myristyl Lactates

Lactic acid-based emulsifier with skin-caring effect, makes the skin smooth and supple.

N-Hydroxysuccinimides

Colourless and odourless substance of biochemical origin, oxidising properties.

Niacinamide

Also called vitamin B3, strengthens the skin barrier, reduces hyperpigmentation, anti-aging effect, sebum-regulating, anti-inflammatory effect.

Nordihydroguaiaretic Acid

Antioxidant extracted from the creosote shrub, a component of traditional herbal medicine.

Oak Root Extract

skin conditioning, antioxidant and cleansing, against redness.

Ocimum Sanctum Leaf Extract

Leaf extract from Indian basil, skin caring, ayurvedic.

Octocrylene

Chemical sun filter.

Oleanolic Acid

Oleanolic acid acts as an antioxidant, insoluble in water.

Oryza Sativa Bran Oil

Rice oil obtained from bran; essential, has a skin caring effect and makes the skin smooth and supple.

Palmitoyl Oligopeptides

Caring substance of biotechnological origin, has a skin caring effect.

Palmitoyl Pentapeptides -7

Amino acid, skin caring, anti-aging effect, also called matrixyl.

Palmitoyl Tetrapeptides -7

Active ingredient of different origin, acts antioxidative.

Panthenol

Also called provitamin B5, supports regenerative metabolism, highly tolerable, promotes elasticity, reduces itching, moisturizes and smoothes.

Papain

Protein-degrading enzyme from the papaya, has a purifying effect.

Perfume

Generic term for fragrances of various origins.

PEG-60 Almond Glycerides

Emulsifier of vegetable origin, enables binding of finely dispersed oil/water emulsions.

Pentaerythrityl Tetra-Di-T-Butyl Hydroxyhydrocinnamates

Antioxidant of synthetic origin, acts antioxidant.

Pentapeptides-17

Also Myristoyl Pentapeptide-17, active ingredient of synthetic origin, is considered as recommendable, has a skin caring effect.

Pentylene Glycol

Moisturizer of biotechnological origin, solvent, skin caring.

Phenetyl Alcohol

Fragrance of synthetic origin, preservative, masking.

Phenoxyethanol

Preservatives of synthetic origin.

Polysorbate-20

Emulsifier of synthetic origin, stabilizing effect.

Proline

Amino acid, supports the formation of collagen.

Propanediol

Solvent of synthetic origin, viscosity regulator.

Prunus amygdalus dulcis (Sweet Almond) Oil

Almond oil extract, strong antioxidant, skin protecting, optimizes absorption, non-comedogenic, very well tolerated, moisturizes and re-fattens the skin.

Red Clover Extract

Extract from red clover, cleansing, regenerating, blood-cleansing.

Retinol

Also known as vitamin A1, fat-soluble vitamin, anti-aging effect.

Salix Alba Bark Extract

Bark extract from the silver willow, has a strengthening effect, soothes irritated skin areas, has a skin caring, hair conditioning and astringent effect.

Salvia Miltiorrhiza Leaf Extract

Extract from the red root sage, has a skin caring effect.

Sea Water

Purified salt water.

Silver (CI 77820)

Silver, food colouring E 174, dyes cosmetic products.

Silybum Marianum Fruit Extract

Milk thistle extract, has a skin caring effect, is considered as recommendable.

Simmondsia Chinensis (Jojoba) Oil

Jojoba oil, forms a delicate lipid film on the skin, increases elasticity, non-greasy, moisture retaining, anti-inflammatory.

Sodium

Also called sodium.

Sodium Ascorbyl / Cholesteryl Phosphates

Antioxidant of synthetic origin, also called stable vitamin C, has a skin caring and antioxidant effect.

Sodium Ascorbyl Phosphates

Antioxidant of synthetic origin, also called stable vitamin C, has a skin caring and antioxidant effect.

Sodium Benzoate

Benzoic acid, well soluble in water, preservative, inhibits growth of yeast and mould, slightly antimicrobial.

Sodium Carbonate

Also known as sodium carbonate, anhydrous also known as pure sodium carbonate or soda ash, food additive.

Sodium Cocamphoacetate

Surfactant of vegetable origin, coconut surfactant, acts hair conditioning, foaming and cleansing.

Sodium Cocoyl Glutamate

Surfactant of vegetable origin, protein surfactant, reaction product of glutamic acid and coconut fatty acid, has a detergent and cleansing effect.

Sodium Hyaluronate

Hyaluronic acid, effectively binds moisture, tightens and smoothes.

Sodium Hyaluronate (Crosslinked)

Hyaluronic acid, effectively binds moisture, tightens and smoothes.

Sodium Lauryl Glucose Carboxylates

Surfactant of various origins, based on coconut or corn, has a detergent and cleansing effect.

Soybean Seed Extract

Soy bean extract, hair conditioning, moisturizing.

Spirulina Maxima Extract

Extract from blue-green algae, skin conditioning, smoothing.

Squalenes

Lipid, component of the skin's own hydro-lipid film, for soft, silky skin feeling, improves absorption, antioxidant.

Steareth-20

Emulsifier and surfactant of different origin, has a washing and cleansing effect.

Tambourissa Trichophylla Leaf Extract

Active substance of plant origin, ambora extract, skin caring.

Tocopherol

Umbrella term for various vitamin E derivatives, has a strong antioxidant and cell-protecting effect, cell renewing and anti-inflammatory, reduces skin damage caused by UV radiation, has a smoothing effect.

Trehalose

Also called fungal sugar or mycosis, has a protein-protective effect.

Tripeptides-1

Active substance of synthetic origin, is considered as recommendable.

Urtica Dioica Extract

Nettle extract, anti-rheumatic, blood cleansing and purifying, against eczema, aromatic.

Vitis Vinifera (Grape) Seed Oil

Grape seed oil, strong antioxidant, protects the cell membrane, is quickly absorbed, promotes skin receptivity, acts against skin impurities and cornification, anti-aging effect.

Xanthan Gum

Fermentation product based on natural microorganisms, has a consistency-giving, thickening, skin-friendly and moisture-binding effect, non-irritating.
