

Johan Peeters

Senior Marine Surveyor

Johan Peeters started his career in ship building and offshore construction. After holding positions as a consultant for steel construction and electro-mechanical engineering, he went to sea for 8 years - 5 of which he was teaching at a maritime institute in Antwerp.

Finally, Johan started to work as a marine surveyor from 2005 until 2022 at BMT Belgium NV. He has extensive experience on a wide range of vessels and barges, shore-based and non-marine equipment and machinery.

In 2022 he started his own company PJB bv.

Johan is frequently invited for various audits and consults by financial institutes, insurance companies and shipowners.

In various files he had been appointed by, Belgium authorities, solicitors and lawyers to mediate in complicated cases.

He is also been appointed by the court of Ghent as a court surveyor specialised in valuation of vessels.
