

EMERGENCY MANAGEMENT

EWS FOR HEAVY RAINS

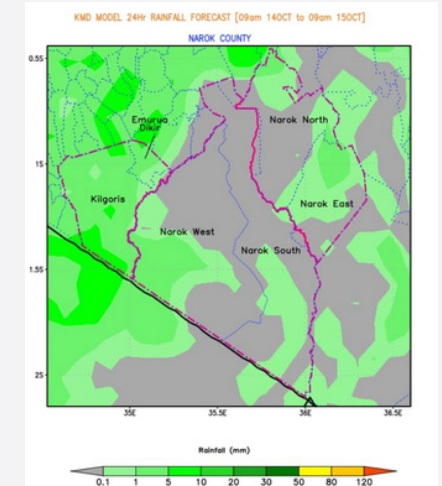

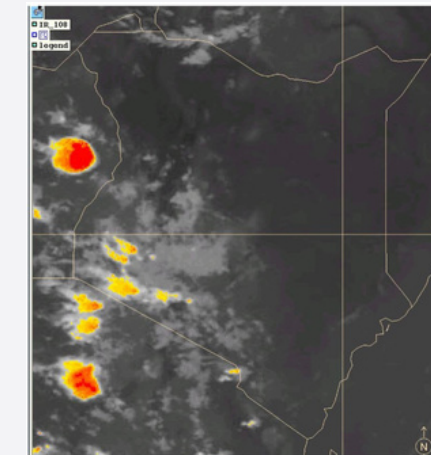

THE PROBLEM

LACK OF TIMELY ALERTS ON SEVERE WEATHER AND FLOODS LEAD TO LOSS OF LIVES AND PROPERTIES ESPECIALLY IN URBAN AREAS

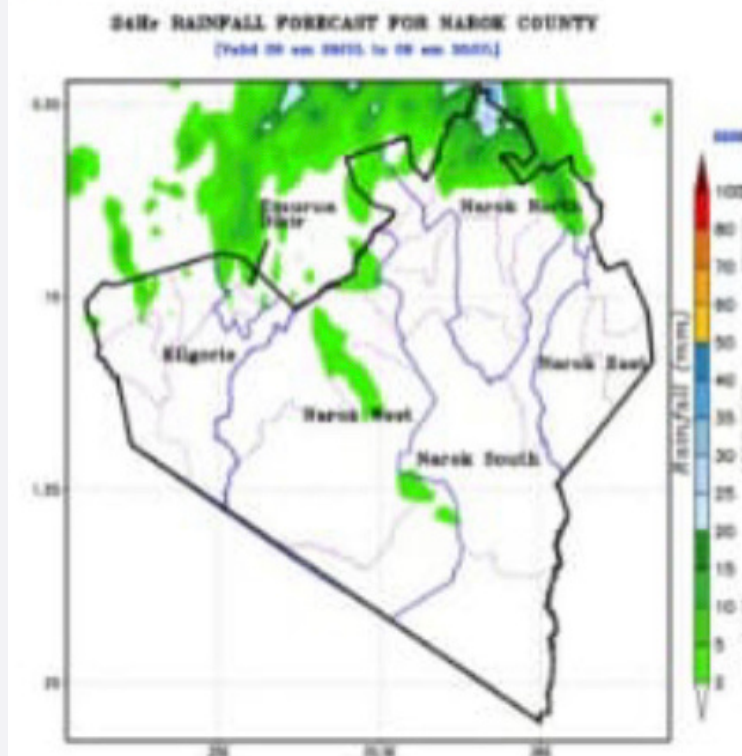

OUR SOLUTION

MONITORING AND FORECASTING URBAN FLOODING TO IMPROVE THE RESILIENCE OF LOCAL COMMUNITIES LIVING IN THE AREA

Forecast for next 24 hours:

Summary:

1. Significant Weather

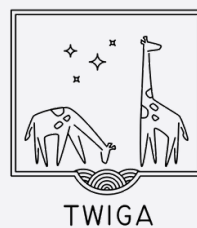

- a) Several areas of Narok North Sub-County expected to experience light to moderate rainfall (2mm-30mm)
- b) Most areas of Narok County to remain dry with expected rainfall amounts below 2mm.

2. Potential flood Risk:

- Medium over few areas of Narok North Sub-County

3. Possible Actions (Advisory)

- Avoid areas expecting medium flood risk

HOW IT WORKS
