

## EGC Golf Experience 2022

Now that many of the Covid-19 restrictions have been lifted at ESTEC we can now re-introduce our 'Golf Experience' which we trialled very successfully in 2019 for our golfers with high handicaps (from 54 down to 36) hereinafter 'rookies'. The rookies must have their Baanpermissie.

In this, two rookies will play a 2-ball 'scramble' over 9 holes on the ESTEC course, accompanied, supported and advised by a relatively experienced 'mentor'.

We will play Monday evenings from 16 May to 11 July, so 9 sessions in total. Players should show up at the Check-In by 17:45 at the latest for a shotgun start at 18:00

Each week we will try to have different pairings of rookies with different mentors so that we all get to know different playing colleagues over the course of the 'Experience'.

We will introduce a little competitive element. The playing handicap of the pair will be the average of the pair and we will use Stableford scoring. The mentor will keep the scorecard for the pair but we encourage the rookies to do likewise for practice in properly filling out scorecards. At the end of the round, each member of a pair will have the same Stableford points. Each week, the scores will be recorded.

Hopefully ESCAPE will be open after the rounds for an après-golf drink and a debrief chat.

We hope this will be good fun for all, as it was in 2019, and that our rookies will get some meaningful practice and gain confidence out on the course and, who knows, we might even have some prizes at the end for our top rookies on 11 July.

We are grateful that Our Club Captain, Helma Nollen has volunteered to be the organiser for this year's 'Experience'. She will set up the registration shortly so that rookies and mentors alike can sign-up for the evenings they're available.
