

# WWSC

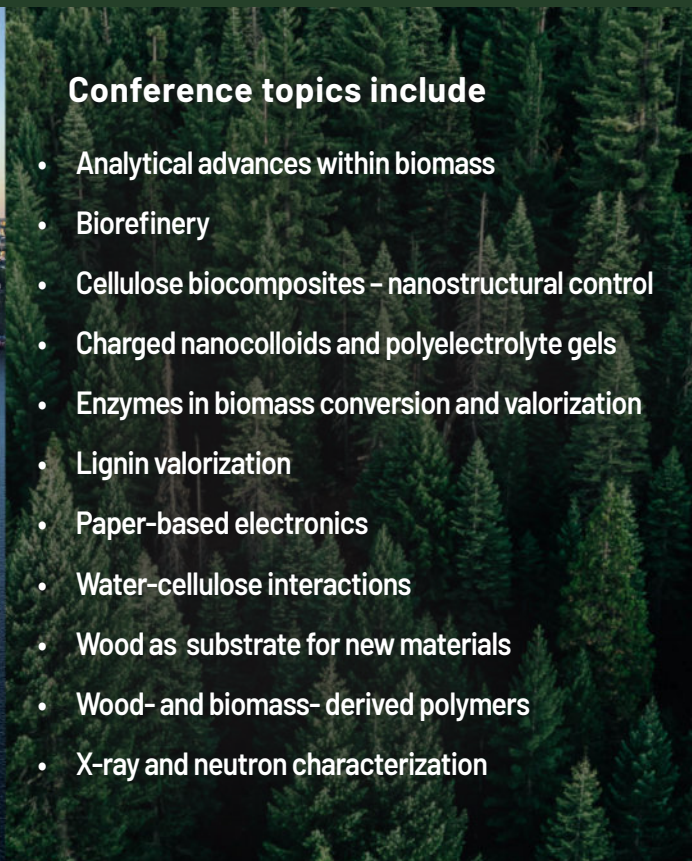

## WWSC INTERNATIONAL CONFERENCE 2025

Stockholm, Sweden, June 15 – 18, 2025

### THE RESEARCH FRONT OF NEW SUSTAINABLE MATERIALS FROM WOOD

The research center Wallenberg Wood Science Center is delighted to welcome you to the upcoming conference on the research front of new sustainable materials from wood. This conference will bring together leading researchers from around the globe, to explore the latest advancements in utilizing wood as a sustainable resource for cutting-edge materials.

We look forward to your participation in this groundbreaking event!

#### Conference topics include

- Analytical advances within biomass
- Biorefinery
- Cellulose biocomposites – nanostructural control
- Charged nanocolloids and polyelectrolyte gels
- Enzymes in biomass conversion and valorization
- Lignin valorization
- Paper-based electronics
- Water-cellulose interactions
- Wood as substrate for new materials
- Wood- and biomass- derived polymers
- X-ray and neutron characterization
