Title	Notice Regarding Fire at Hankook Tire's Daejeon Plant in Korea

We refer to our initial "Notice Regarding Fire at Hankook Tire's Daejeon Plant in Korea" dated March 13, 2023.

By way of update, the fire caused our Daejeon plant to shut down and it is estimated to take, even with our fullest efforts, about one year minimum before it becomes operational again.

As a result of such unforeseeable circumstance, we are limited in our supply of racing tires and the volume which can be supplied to the racing events organized by you will also be limited unfortunately. Please refer to the appendix for detailed information.

Your suggestions and ideas to minimize the impact on racing event organizers and participating teams will be very much appreciated and we look forward to the opportunity to discuss ways to resolve the issue at the soonest possibility.

We are extremely regretful of the situation and sincere apologies for all the inconveniences caused as a result.

Sincerely,

Youngsoo Kim
