

GOLD

I could travel land and sea
Fight off all the storms
as long as you are with me

I could fight for my beliefs
Armed with only words
as long as you stand with me

So let gold be gold,
'cause it don't matter no more
Turned every stone
although I still don't know what I'm looking for
it only drags me down
I'll let it go

I could leave it all behind
start again somewhere
as long as you come with me

I could live in night for years
with no sign of light
as long as you are with me

So let gold be gold,
'cause it don't matter no more
Turned every stone
although I still don't know what I'm looking for
it only drags me down
I'll let it go

So we let gold be gold
'cause we've turned every stone
