

Activ-Film™ materials M-0026

Moisture Adsorbing

Applications

Industries served

- Pharmaceutical/OTC
- Industrial
- Food/Nutrition
- Diagnostics
- Electronics

Benefits

Design

- Standard rolls or reel format
- Can be heat staked or adhered using adhesive
- Can be die cut into unique shapes

Activ-Polymer™ Technology

- 100% utilization of the desiccant material capabilities
- High adsorption capacity
- Maintains a low relative humidity
- Residual moisture in dosage can be removed
- Extends product's shelf-life

Regulatory and Quality

- ISO-9001 certified company
- Listed in the DMF
- GMP manufacturing upon request
- Complies with Regulation (EU) No 10/2011

Characteristics

Please note that these values are average measurements.
Tolerance (will vary based on product)

Film

Width range	7.5 mm - 150 mm
Thickness	0.30 mm
Thickness range	0.3 mm - 1.2 mm
Color*	Natural

*Custom colors may be available and typically require a set up charge

Activ-Polymer™ Technology

Desiccant type	molecular sieve
Functional life	Typically 1 year or more, varies by product, storage in use, and customer application (22°C/80%RH)

Typical Capacity

5.0 mg/cm²
