

****PRESS RELEASE****

FOR IMMEDIATE RELEASE

MUNICH, Germany - ACCNITE onDemand teams up with Proximity, providing a powerful, streamlined solution for the integration of SRD II compliant shareholder disclosure reports into the investor relations workflows.

ACCNITE onDemand, a European provider of a comprehensive suite of investor relations tools, has entered into an agreement with Proximity to integrate shareholder disclosure reports into ACCNITE's investor relations application. This collaboration aims to bridge the gap between detailed shareholder data and actionable insights.

ACCNITE onDemand users can now include Share ID reports, sourced through Proximity, directly into their workflow. The detailed shareholder disclosure reports are further enhanced by ACCNITE and are accessible in the fully integrated application. This fully digital process facilitates a deeper understanding of shareholder data, allowing companies to focus their IR activities strategically and with greater confidence.

The integration of Proximity's SRD II compliant reports into ACCNITE onDemand's platform represents a significant step forward in the digitalisation and simplification of investor relations workflows. The result: increased effectiveness and efficiency in IR work.

Maria Töpfer, Co-Founder of ACCNITE, states: "This collaboration signifies a commitment from ACCNITE to provide a powerful and efficient tool for listed companies to better understand their investor base and to optimise workflows. We are proud to have won Proximity as a partner. Proximity's digital first approach fits well with ACCNITE's data-driven IR philosophy whereby Proximity's strong network of custodians on a global scale ensures we can deliver a best-in-class service."

For more information about this partnership and the benefits it offers to listed companies, visit www.accnite-ondemand.com or proximity.io.

About ACCNITE onDemand

ACCNITE onDemand provides an integrated investor relations solution as a service. The cloud-based application digitises and simplifies investor relations workflows centred around investor engagement, shareholder insights and investor targeting.

Our solution allows IROs to analyse the behaviour of their institutional investors on an ongoing basis using the extensive shareholder database and benefit from detailed investor profiles fully integrated with company specific shareholder information from SRD II compliant disclosure reports. Listed companies can be confident to identify relevant target investors globally using the artificial intelligence built into the investor targeting tool.

ACCNITE onDemand's investor relations solution offers key features that support IROs and CFOs in building long-term relationships with the right investors. From digitally mapping investor meetings or

organising direct corporate access to a fully digitised feedback process, ACCNITE onDemand equips IR teams to manage investor engagement effectively and monitor investor perception consistently.

With ACCNITE onDemand, listed companies benefit from an ease-of-use and cost advantage allowing the C-Suite and IR teams to deploy their resources meaningfully and increase the IR team's productivity.

ACCNITE onDemand is a 100% affiliate of corporate finance and IR advisory firm ACCNITE Partners® located in the Munich metropolitan area, Germany.

About Proximity

Proximity connects the world's ecosystem of issuers, intermediaries, and investors digitally in real time, bringing unprecedented transparency, efficiency, and accuracy to traditional paper-based processes. Trusted by the world's largest financial institutions, it is the leading digital investor communications platform, serving over twenty-five markets world-wide. Proximity's ground-breaking technology has also been recognised industry-wide, with recent awards including FSTech's "Most Disruptive Technology in the FinTech Sector" and GC Magazine's "FinTech of the Year 2022".

Our solutions give public companies confidence that their AGM/EGM agendas are transmitted as "golden source" and provide institutional investors with the time to research and vote on corporate decisions, as well as actual digital confirmation that their votes have been received. The digital-native platform, built on highly scalable technology, provides full compliance with the latest regulations such as the Shareholder Rights Directive (SRD II).

Proximity promotes enhanced environmental, social, and governance (ESG) by improving communication between issuers and investors while making it easier for intermediaries to provide efficient, timely and compliant client service.

The company is backed by a global consortium of the industry's most influential financial institutions, representing seven of the world's top ten Global Custodians managing over \$200 trillion in assets under custody (BNP Paribas, BNY Mellon, Citi, Computershare, Deutsche Bank, Deutsche Börse, HSBC, J.P. Morgan, Mediant, State Street).
