

# NV-DTF-60 PLUS

DIRECT TO FILM PRINTER FÖR TEXTIL

An All-In-One printer that can produce transfers to basically any material with a high-quality result. It has automatic color circulation and you can easily read the color level through the transparent containers. The printer has a fully automatic dosing of powder glue in a circulating system for reuse, which means that no glue is wasted.

With 2 Epson i3200 print heads that can handle 2400 dpi, you get a sharp and clear print. For increased efficiency, it prints and heats at the same time and you choose which width of film you want to use. It does both 30 and 60 cm film.

Print head .....	Epson 13200
Head qty .....	2
