The mother of 17-year-old detainee Abdulaziz Jaffer Abdulaziz expressed concern and fear over her son's arrest last Friday. Authorities arrested him in a raid on the family's home in Bani Jamra. She demanded his release so that his studies may continue.

She said, "My son was arrested last Friday after our house was raided. He was taken from his room. We are fearful over his situation. He called, saying that he would be interrogated, and that he would call afterward to request some clothes."

Abdulaziz's mother added, "He was taken to the public prosecutor's office, which extended his detention to 45 days over illegal assembly and throwing Molotov cocktails. He is so far from that. He is quiet, polite and respectful, and we worry that his education will be negatively affected."
