thermal imaging from e2v

Argus[®] Mi-TIC Imaging and Video Pack

Introduction

The image and video capture pack enables the Argus[®] Mi-TIC to capture and store images and video. It also offers the user a black box recording feature that automatically records everything once the camera is powered up.

The features are enabled via a token, simply scratch off the security panel to reveal a code that can be entered into the Argus website to redeem the camera upgrade.

The camera needs to be placed in its charging cradle and connected to a PC with internet access to enable this process to be completed.

Order Code

- ARG_MI_IV
