

Lithium Iron Phosphate Battery - Standard

The standard battery for the argus[®] Mi-TIC is compact, lightweight and can operate the camera for over 2 hours. It features a thumb operated latch that allows it to be easily removed and re-attached to the camera.

The Lithium Iron Phosphate battery technology used in the packs does not suffer from thermal runaway and consequent risk of explosion typical of other common Lithium technologies making them the right choice for operation in high operating temperatures.

PHYSICAL DATA

Material: Radel[®] - 5100 / Santoprene[®]

Dimensions: 76 x 88 x 27mm

Weight: 160g (0.35lb)

Sealing: IP67

ELECTRICAL DATA

Battery Type: Lithium Iron Phosphate Rechargeable

Battery Capacity: 1100mAh

Battery Life: In excess of 2 hours

Recharging Time: Less than 2 hours

Recharge Cycles: Over 1000

Thermal Conditions: -20°C (-4°F) and +85°C (185°F)
