SAFETY AND INNOVATION

Lithium Iron Phosphate Battery - Large

PHYSICAL DATA

Material:	Radel [®] - 5100 / Santoprene [®]
Dimensions:	76 x 88 x 35mm
Weight:	250g (0.55lb)
Sealing:	IP67

ELECTRICAL DATA

Battery Type:	Lithium Iron Phosphate Rechargeable
Battery Capacity:	2500mAh
Battery Life:	In excess of 5 hours
Recharging Time:	Less than 4.5 hours
Recharge Cycles:	Over 1000
Thermal Conditions:	-20°C (-4°F) and +85°C (185°F)

ARG_MI_BLPL	Mi-TIC Lithium Iron Phosphate Battery (Large)

The large battery for the argus® Mi-TIC is slightly deeper and heavier but can operate the camera for over 5 hours. It features a thumb operated latch that allows it to be easily removed and re-attached to the camera.

The Lithium Iron Phosphate battery technology used in the packs does not suffer from thermal runaway and consequent risk of explosion typical of other common Lithium technologies making them the right choice for operation in high operating temperatures.
