

Model : SD-40/SF-40

Overview

The SF-40/SD-40 Automatic Taping System automatically feeds and applies transfer tape with liner in place and tear strip tape to a corrugated or paperboard blank.

Method of Operation

Using this machine the operator manually loads the product in a hopper and starts the machine. The automatic feeder feeds the blanks to a conveyor where one or more tapes are applied automatically at speeds up to 350 (107 m) per minute depending on the tape and the product. The product is then conveyed out of the machine for additional processing. Top loading of feeder permits loading while machine is operating.

Optional Features

- Multiple tape applicators to apply several lanes of tape in one pass
- Dual taping heads with an automatic switching system for the transfer tape for continuous operation when one roll runs low
- Downstream processing equipment including stackers and shingling conveyors
- Variety of tape applicators including tear tape, adhesive transfer tape, magnetic and foams

Automatic Taping System for E-commerce Packaging

Product Specifications

Product Size: 12" (305mm) to 40" (1,016mm) wide;
12" (305mm) to 35" (900mm) long

Product Thickness: 15 point (0.4mm minimum paperboard)

Tape Roll Sizes: Tear Strip Tape-15" (381mm) OD x 7" (178mm) high, 6" (152mm) ID Core Transfer Tape-18" (457.2mm) OD, 3" (76.2mm) ID Core

Machine Specifications

Electrical: 120 VAC, 1PH, 60 Hz. Size: 16' (4.88m) long x 5' (1.52m) wide x 5.5' (1.68m) high

Speed: Up to 350 (107 m) per minute

THE AETEE GROUP

"A job's not finished until it's finished."

AeTee Group

At AeTee our focus is on the Print Finishing market, providing high quality finishing equipment that offers versatility, flexibility and value. We believe in partnering with our customers, not just supplying equipment, and together finding solutions for your current needs as well as helping to identify future productivity potential.

With this at our core, we are continuously looking at ways to evolve our product line, ahead of market development and customer led demand. Please contact us even if you cannot see what it is you are looking for... If it is not something we currently supply, we will happily try and source it for you.
