

# **Survey on Publishing Activities – Results**

The Association of European University Presses (AEUP) invited all its members, but also other interested university presses and institutional scholarly publishers or alike from all over Europe to participate in a *survey*.

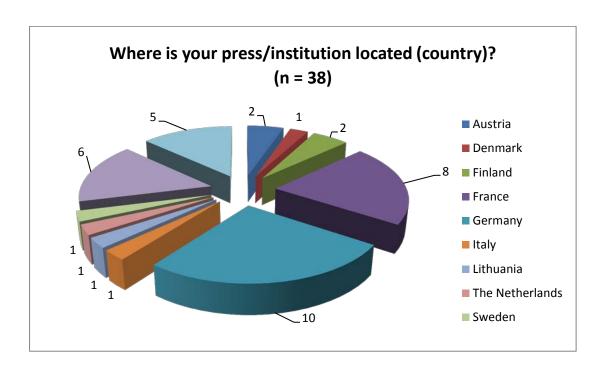

Its aim was to get information on the presses' needs and challenges, as well as to scope the horizon for future questions and opportunities, thus establishing a rounded picture of the actual situation for such presses. The first call was on-line from July 1<sup>st</sup>, till August 15<sup>th</sup>, 2015. During this period of time, 38 presses participated (thereof 28 non-members of AEUP, 10 members).

The off-line version of the survey is added at the end of this document.

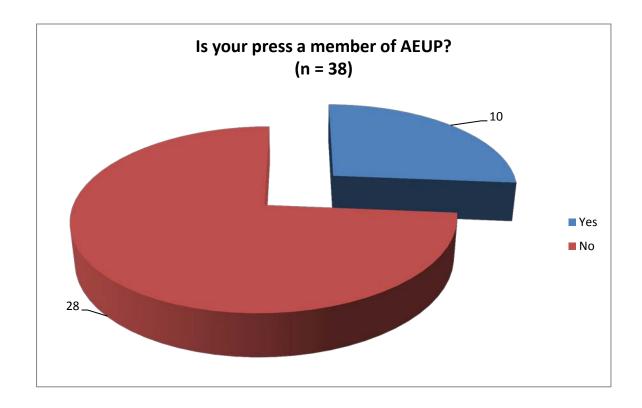

Several questions allow multiple answers, others provide pre-text options (indicator:  $n \neq 38$ ).
