

INTRODUCTION TO THE Q-WEB

I started creating this thinking map in mid-November, 2017. Its focus is a chronological timeline of our hidden history, highlighting government projects & operations, the occult beliefs held by our world's controllers, declassified information, lies we have been sold by the media, and generally things you won't read about in standard history books, yet can be easily referenced on Wikipedia. All information should technically be considered "theory", and i encourage you to research each point on this web yourself, and come to your own conclusion about it's validity. The Q-web blends generally accepted facts and plausible theories together, and challenges the viewer to use their own discernment.

Sections 1 and 2 at the top of the web are devoted to early history. The main timeline down the center (3) is divided into two categories, "Technology / Spirituality" to the left, and "War / Violence" to the right. Many topics relate to the closest adjacent topics without an arrow. Many connections that could be made are not drawn on the map for the purpose of maintaining legibility of the text. There are also several larger sections of data points related to a single topic.

Seek out the "Key to the Q-web" online to better understand how related subjects are clustered.

This information is being distributed freely in order to hasten what has been coined "The Great Awakening." A physical print-out is the recommended way to transfer this information. On my website you will find high resolution digital files of this artwork, as well as apparel and other items printed with the Q-web to help you spread truth and light.

You are encouraged to share this information the most effective way you deem appropriate.

The survival of our Republic and indeed the human species may depend on it.

Godspeed patriots.
