## IP68

Protection against ingress of solid and water ingress, up to and including complete submersion below 1 meter and for more than 30 mins.

## IP69K

Withstand washdown at pressures of 80 to 100 bar/1,160 to 1,450 PSI, in phases of 14 to 16L/min, and at temperatures up to 176°F/80°C.

## STD-810H

Tested against immersion-underwater up to 1.5 meters for 24 hours.

## Character

# Design to be Robust

Unlike consumer-grade products, the architecture of ARC Ultra+ is designed to be durable. Both on the exterior cover screen and on the exterior cover camera, 1.1mm Corning® Gorilla® Glass is equipped. As for structure, we specially design a frame to protect the internal parts, light yet tough.

01 1.1mm Corning® Gorilla® Glass on the exterior cover screen

---

02 double-layer 1mm magnesium-titanium alloy frame

---

03 1.1mm Corning® Gorilla® Glass on the exterior cover camera

---

Less Lag. Faster streaming. Smoother gaming. More power efficiency. More reliable connection.
