**AN ICONIC NEW MODEL**

**BUILD YOUR OWN PIECE OF MARITIME HISTORY AND RAISE THE TITANIC!**

**The Model**
This amazing collection brings to life the most famous ocean liner the world has ever known in this faithfully reproduced model. The design is taken from the original construction plans to produce a masterpiece of modelling.

**With moving parts, working lights, smoke effects and sounds, you can create your very own model to treasure.**

**Photo-etched brass** gives a precise finish for the smallest details.

**Metal hull** with panels and rivets in sharp relief.

**Scale 1:200**

Over 134 cm long!

**Width 14.5 cm • Height 22.5 cm**

**Step-by-Step Instructions**
Specially commissioned photography and easy to follow instructions show you how to build your model.

**Die-cast hull**
Relief moulding brings out the construction method and highlights the name plate.

**Remote Control**
Operates moving parts, lights, sounds and smoke effect when your model is complete.

**Running Engine**
A panel in the hull can be removed to reveal the engine in action.

**Rotating Propellers**
Three propellers reproduce the driving force of the liner.

**Working Lights**
Interior lighting adds to the sense of luxury, while practical details include navigation lights.

**Life Boats**
The life boats that line the decks are fitted to davits on the upper decks.

**Smoke Effect**
The funnels appear to smoke – the effect is controlled by an electronic device.

**Deck Details**
Winches, capstans, bollards, vents and other details are fitted to the wooden decking.

**Realistic Accessories**
Benches, rigging and other details realistically modelled.

**Over 134 cm long!**
WMTA 14.5 cm • HEIGHT 22.5 cm
