The last part of a Tools and Tillage volume contains an index of the volume. Part 4 of volume VI, 1991, however, also contained an index of all hitherto published volumes, 1968-1991.

Grith Lerche and Alexander Fenton dedicate this issue to our Fellow Editor, Axel Steensberg, in honour of his 90th birthday on 1 June 1996, in appreciation for his never-deviating and never-failing enthusiasm for the work with which this journal is concerned, and for the constant stimulation we have received from him.
