#backtothewoods

VICKY WOOD

WHO IS VICKYWOOD

Vickywood derives its name from our namesake Vicky who surrounded herself with a young team who all have one thing in common: the passion to be close to nature, the thirst for adventure and the will to create authentic products that we can share with anyone who has the same passion for the Big Outdoors as us.

That will and that passion were what motivated us to sit down, make our gears grind and create the perfect rooftop tent. More than once we canned whole projects and started over until we reached a level of quality and finesse that we aspire to have in our products.

The result of that process is our collection of rooftop tents and accessories that provide maximum functionality and quality.

While the passion for the outdoors on the one hand motivated us to create new products it also made us look for opportunities to preserve something without which all our products would be only half as much fun: our environment and the beautiful nature of it. We found an opportunity to do so by teaming up with a non-profit organization called **Plant-for-the-Planet**.

PLANT FOR THE PLANET

VICKY CARES

NO PLANET B? THEN LET'S SAVE OUR PLANET A!

The whole team at Vickywood has one thing that connects us all: We are in love with nature. And when going outside, looking around and taking in everything our wonderful planet has to offer – how could we not!

There is almost no better way of recharging than spending time in nature. It is our aspiration to enable everyone to experience the tranquility that can be found in between forests, mountains and lakes.

That is why, with your help, we give ten Euros to Plant-for-the-Planet for every rooftop tent sold. This allows us to plant five trees with the rest of the money allowing children to be taught about the protection of our environment and to become ambassadors thereof.

For further information please check www.vickywood.com/vicky-cares/.

GIVING EVERYONE A GREEN THUMB

BUY A TENT, PLANT A TREE!

Why do we keep repeating this? The reason therefor is quite simple: trees are incredibly valuable to our climate. By binding CO₂, cleansing the air and producing oxygen they help combatting global warming. Unfortunately, over the last couple of decades, the population of trees on our planet has been drastically reduced from 6 to 3 billion. As the climate crisis is spiraling out of control it is without question that we must act now.

Because of that we decided to support Plant-for-the-Planet, an initiative created by Felix Finkbeiner, who was just nine years old when he brought the initiative into existence. Even though it started as just a presentation in school Plant-for-the-Planet has since gained traction around the globe with children becoming ambassadors and teaching each other

about the dangers and challenges that climate change presents us all with. The initiative has a goal – planting a trillion trees. They will not be able to reach that goal without our help though.

In 2015 Plant-for-the-Planet has initiated a reforestation project located on the Yucatan-Peninsula in Mexico where trees are to be replanted in an area that has been completely grubbed. Efficient working methods allow the initiative to be able to plant a tree for around one euro. More than six million trees have already been planted and still Plant-for-the-Planet shows no sign of slowing down. Until the end of the year 2030 they aspire to have planted one hundred million trees on the peninsula. Apart from helping nature recover from the atrocities humanity has unleashed this is also an opportunity for locals to find work. Plant-for-the-Planet offers stable wages and a job that provides them with healthcare and social security. These locals take care of the trees and play

a huge part in the success of the initiative. One of the trees that they take care of can bind up to half a ton of CO₂ over the course of its lifespan.

You can become a part of this project as well. Every rooftop tent sold directly supports Plant-for-the-Planet, nature and the locals – because the future of our planet is everyone's job.

FOLDING ROOFTOP TENT

VICKYPEDIA

FOLDING ROOFTOP TENT

Folding rooftop tents generally consist of two plates that form the floor of the tent by unfolding it via the long side. The fabric is unfolded automatically by the framework. Once standing folding rooftop tents are similar to regular tents when it comes to looks. Characteristically those tents are incredibly spacious and thanks to their many windows offer an incomparable view. We offer a multitude of sizes so no matter how big your family is we certainly have the right rooftop tent for you.

ADVANTAGES

- Very spacious, protected space next to vehicle
- Huge reclining surface
- Amazing sense of space created by windows and increased inner height
- Less weight
- Compact when folded for transport
- Less expensive

DISADVANTAGES

- More complex to unfold
- Not as aerodynamic as hardcover which leads to noises while driving

OUR FOLDING ROOFTOP TENTS

SMALL WILLOW 140 | 160

BIG WILLOW 140 | 160 | 180 | 220

BALSA 140

LITTLE BAMBOO 125

ROOFTOP TENT TYPES

HARDCOVER ROOFTOP TENT

When not in use they look like transport boxes. Setting up a tent can not get any easier or faster. Our pneumatic springs open the tent within seconds – no external power needed.

If you want to stay flexible and get back on the road in no time, a hardtop tent might be right up your alley.

ADVANTAGES

- Easy and fast set-up
- Less fabric, therefore less clammy in humid surroundings
- Less space needed on the side of the vehicle
- Robust, high-quality hardtop

DISADVANTAGES

- More expensive
- Limited reclining surface
- No protected space next to vehicle

OUR HARDCOVER ROOFTOP TENTS

CUMARU 135 + ECO

CUMARU LIGHT 127 ECO

CUMARU LIGHT 152 ECO

HARDCOVER ROOFTOP TENT

HYBRID ROOFTOP TENTS

Camouflaged as a hardcover when not in use, spacious and big reclining surface when set up. To hit the nail on the head hybrid tents combine all the advantages of the previous types of rooftop tents.

They are incredibly easy to set up, offer a lot of space yet still stay compact when folded together and they are protected by a hardcover. If you are looking for a rooftop tent and want to have all the possible advantages, look no further than the Hybrids.

ADVANTAGES

- Robust packaging
- Big space and reclining surface
- Fast set-up
- Protection allows to keep it mounted during all four seasons

DISADVANTAGES

- Increased weight
- More expensive
- Needs more room to set up than usual hardtops

OUR HYBRID ROOFTOP TENTS MIGHTY OAK 160 | 190

TAKE A LOOK

OUR SUBTLITIES AND PECULIARITIES ARE FOUND IN THE DETAILS, DESIGN AND HANDLING.

SMALL WILLOW

OUR SMALL WILLOW IS SET TO TURN HEADS.

Its symmetric style makes it an upgrade for almost every vehicle there is. Even though it is slim and compact the total length when set up is a whopping 2,40 meters and still offers an easy set-up.

Getting into the tent is just as easy when using our telescopic ladder which is made of Aluminum. On the way up you can store your shoes in one of the bags integrated in everyone of our tents next to the main opening.

Having climbed up into the tent you are certain to be baffled by the incredible view offered by the openings on all four sides. Apart from the view these openings allow for an amazing climate inside the tent and protection against animals thanks to the mosquito netting built into every

window. Another highlight are the **two Skyline windows** which can be used to marvel at the beautiful night sky while still enjoying the calm and peace of your tent.

If the moon and stars are not enough to enlighten nocturnal ongoings you can always rely on the built-in **LED Lights** which can be easily powered by a Power Bank.

When laying down you will be greeted by our **high-density mattress** offering you the utmost comfort. The memory foam used in our mattress will offer a sleeping experience that will make you feel at home.

The SMALL WILLOW offers protection against harsh weather thanks to its water repelling outer lining, stacked fabric and variously taped seams.

BIG WILLOW

SPACE MIRACLE WITH COVERED ENTRY

If you like space and comfort look no further because our BIG WILLOW is a spatial miracle. When set up it offers 2,40 meters of length.

Setting it up is just as easy as other folding roof tents even though the annex functions as a roof above the ladder. This annex offers protection against harsh weather even when climbing in and out of your tent. Storing your shoes in the shoe bags while being protected against rain is a serious quality of life improvement that every camper should treat themselves to.

When having arrived up in your BIG WILLOW you will be greeted by two luxurious windows, a second entrance opening and **two Skyline windows** offering an incredible

view of your surroundings.

Like all our tents the BIG WILLOW has an **integrated light band** that can be powered by a 12W USB cable.

When going to sleep you will find our **mattress made of memory-foam** offers an impeccable sense of comfort close to your bed at home.

The BIG WILLOW offers protection against harsh weather thanks to its water repelling outer lineage, stacked fabric and variously taped seams.

FOLDED

AWNING

BIG WILLOW - THE LADDER IS INSIDE THE AWNING

Our awnings for the SMALL and BIG WILLOW tents are a versatile addition for every rooftop tent. They fit almost every height of vehicle thanks to the innovative zipp-system with which the height of the awning can be changed (165 - 180 cm or 200 - 220 cm).

Using an awning gives you the opportunity to create additional places for sleeping, storage or just enjoying time outdoors. Stacked fabric, waterproof zippers and retaped seams make the awning water repellent and protect you from people looking into your tent. At the same time, it can be opened on all four sides without any issue. This allows you to access your vehicle for whatever reason without having to take down the awning every time.

Winged guests going to have a tough time passing the mosquito netting on the openings so they should not give you any problems. Using the

telescopic poles included with the awning you will be presented with the opportunity to create a porch that will either protect you from the rain or will give you shadow to make hot days more bearable. The optional floor is also included with the awning and can be easily mounted using the zipper on the bottom end of the awning.

THERMO-INNER TENT

Our inner tent made of polyester creates a warm and cozy cave that keeps you warm even during the most freezing nights. Just hook it up at the corresponding points in your tent and temperatures below the freezing point will not phase you.

ALREADY INCLUDED

All the quality and care are wonderful, but camping is a game of accessories. Because of that there is quite the number of these included with all our tents.

- **Telescopic ladder:** fits almost every vehicle, expandable up to 2,30 meters, holds up to 150 KG, also available as 2,60 meters
- **Accessory bag:** holds everything needed to mount the tent on your vehicle
- **Protective cover:** protects your tent against wind, weather and dirt while driving or storing
- **Shoe bags:** practical bags, used to store your shoes next to the entrance.

TELESCOPIC LADDER

PROTECTIVE COVER

ACCESSORY BAG

TWO SHOE BAGS

BALSA LIGHT

OUR BALSA LIGHT HAS ONE THING GOING FOR IT - ITS WEIGHT.

Clocking in at around **55 kg** it is the perfect choice for all the smaller vehicles.

When set up it still offers the same 2,40 meters length and a very spacious room. The annex and the set up are the same as our BIG WILLOWS have to offer and will keep you warm and dry when entering and exiting the tent. The BALSA also has our **practical shoe bags** included.

When inside the tent you will have a luxurious view to three sides and two **Skyline windows** integrated in the roof. We wanted to reduce the weight and still offer you as much comfort as possible, so we still included the mosquito netting protecting you from

flying guests.

You will also be able to lighten up dark nights using the **light band attached** to the roof of your tent.

Our BALSA offers protection against all kind of weather thanks to its stacked fabric, taped seams and water-repelling outer lining.

FOLDED

LITTLE BAMBOO

OUR SUPER-LIGHTWEIGHT

Perfect for small vehicles with little roof load: our super-lightweight folding tent LITTLE BAMBOO. With its weight of **only 44,5 kg** it is one of the most lightweight rooftop tents.

Thanks to its symmetric and compact form it fits nicely on almost every vehicle. Though it doesn't seem spacious at first sight, it still offers a 2,25 meters length lying surface. The windows on each side open and close automatically, which helps with the extremely easy and fast set-up.

Getting into the tent is just as easy when using our telescopic ladder which is made of Aluminum and can be adjusted to the height of your car. On the way up you can store your shoes in the bag integrated in everyone of our tents next to the main opening.

Having climbed up into the tent you are certain to be baffled by the incredible view offered by the openings on all four sides. Apart from the view these openings allow for an amazing climate inside the tent and protection against animals thanks to the mosquito netting built into every window. Another highlight are the **two Skyline windows** which can be used to marvel at the beautiful night sky while still enjoying the calm and peace of your tent.

If the moon and stars are not enough to enlighten nocturnal ongoings you can always rely on the built-in **LED Lights** which can be easily powered by a Power Bank.

The LITTLE BAMBOO offers protection against harsh weather thanks to its water repelling outer lining, stacked fabric and variously taped seams.

CUMARU

FUNCTIONALITY, DESIGN AND DURABILITY

Our CUMARU is the rooftop tent for the roughest trips. Mud, dirt and rain are no match for the robust aluminum box. High-quality pneumatic springs help you setting up your nightly mansion within seconds. A **huge Skyline window** above the entrance creates a well-rounded look.

To set up you only need to unlock the two clasps and thanks to a **STABILUS licensed pneumatic spring system** your tent will build itself up without external force needed. On the inside you will have huge windows on three sides and a protective aluminum cover on the fourth.

When not in use the CUMARU only adds 16cm to

the height of your vehicle and even though it is built using only the highest quality of materials only weighs around 80 Kilos.

Thanks to its outer case, stacked fabric and taped seams our CUMARU offers protection from everything weather might sling at you.

Of course, we also included a **memory-foam mattress** and additionally a Mesh with our CUMARU which helps to circulate humid air out of your tent.

To keep the insides of your CUMARU as clean as possible you will find shoe bags next to the entrance. Apart from storage these bags also offer ventilation

so your shoes can air out and dry during the night. As fast as you are set up you are ready to get back on the road. Just pull down on the attached sling and the upper part of the box will slide down allowing you to close the clasps and be ready to continue your adventure within a minute.

Another highlight is the **rack that can be mounted on top of the tent** and supports weight of up to one hundred Kilos. By being adjustable seamlessly it allows you to transport boxes, bikes, boats or whatever else you need on your next adventure.

MIGHTY OAK

OUR ALL-ROUNDER

Folding tent and hardcover, comfort and easy set-up. All the things you are looking for in a rooftop tent, unified in one beautiful package – that is our MIGHTY OAK. Its flawless design makes it the cherry on top of every vehicle. Pneumatic springs make the set up easy and fast. For that just loosen the clasps on the bottom and the box will rise without further external force. Then just unfold the plate that forms the floor, and you are rewarded with a 2-meter declining surface.

When done with the setup you can reach your rooftop tent by climbing up the telescopic ladder and will be greeted by an amazing, spacious room that does not only have windows on the left and right but also on the furthest wall where your head will be while sleeping. All of those are fitted with a mosquito netting to prevent unwanted guests during the night.

You will also find two bands of **LED lighting** integrated into our MIGHTY OAK that can be activated by use of a 12 Volts battery pack.

Your needs for comfort will be met by a **high-density mattress** offering you sleeping conditions just as comfortable as home. Stacked fabric, taped seams and a water-repellent outer lining will keep you protected from the fiercest weather.

It is no coincidence that our Hybrid rooftop tent is called 'MIGHTY OAK.' Thanks to its tough **hardcase made from ABS**, our MIGHTY OAK is well-protected and can stay on your vehicle all year round.

ROBUST HARDSHELL

WHAT'S IMPORTANT TO US - THE MATERIALS

A rooftop tent is not only supposed to look great but more importantly to work well for the entire course of its life-cycle. That requirement as well as the creation of a pleasant climate inside the tent have led us to use high quality fabric:

- Outer lining: 600D Polyester Oxford, PU-lining, W/P, W/R 3000 mm, UV50+
- Inner lining: 320 gms Ripstop Poly-Cotton Canvas, PU-lining

The Poly-cotton canvas combines advantages of the natural fiber cotton and the artificial fiber Polyester – the cotton within the fabric absorbs humidity while the polyester leads to said humidity being transported out of your tent. That interplay does not only lead to a pleasant climate but also minimizes condensation. Using high-quality zippers at every connection were a no brainer for us.

The plates that form the lowest part of the construction of the rooftop tents are made of robust honeycomb aluminum, which is representative for sturdiness and less weight. Another advantage is the excellent insulation this material offers. Well protected against corrosion and external force this material offers an extended circle of life while carrying a high quality.

BYE MOISTURE

SLEEPING WEIGHTLESS

OUR MATTRESS

VISCOUS FOAM - HIGH DENSITY FOAM

Viscous foam is also known as memory foam. This thermoelastic foam can be easily recognized by the fact that any deformation caused by pressure only disappears after a few seconds. If you lie down on the mattress, it yields accordingly at the corresponding contact surfaces depending on your weight and hugs your body exactly at the center of gravity lines.

Important to know:

The full effect only becomes apparent when the foam is warmed by your body and thus becomes more pliable. This relieves pressure on the entire body and creates a feeling of weightlessness.

THE SPECIAL FEATURES:

- Pressure relief: perfect especially for side and back sleepers.
- Due to its closed structure, viscose foam does not provide a breeding ground for house mites and is particularly suitable for allergy sufferers and asthmatics.
- Due to the reduction of pressure points especially suitable for people with tension, joint problems, back pain or circulatory problems.
- Durability due to regular rotation of the mattress.
- Removable, washable cover with soft flannel top and water-repellent bottom.
- YKK zippers
- Very stable

Available dimensions (W x L x D):

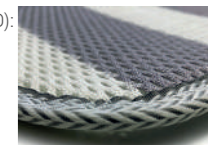

- 140 x 240 x 6 cm**
- 160 x 240 x 6 cm**
- 180 x 240 x 6 cm**
- 220 x 240 x 6 cm**

3D-MESH-MATTRESS

The 3D MESH MATTRESS UNDERLAY prevents moisture build-up, provides you with additional lying comfort and insulation against cold.

Available dimensions (W x L x D):

- 120 x 200 x 0,7 cm**
- 140 x 240 x 0,7 cm**
- 160 x 240 x 0,7 cm**
- 180 x 240 x 0,7 cm**

MARQUEE

DAS MUST ON A CAMPING TRIP

The VICKYWOOD awning offers you enough covered space for pleasant hours. Whether for sitting comfortably, socializing or cooking. Here you can either stay protected in the shade or dry in the rain completely relaxed.

The awning is mounted individually on your roof rack via a rail system. Height-adjustable telescopic poles form the stable framework of your awning. Finally, connect the Velcro straps to the poles and your shelter is ready in just a few steps.

- Rear Awning 140: **140 x 200 cm | 7 kg**
- Awning 200: **200 x 200 cm | 13 kg**
- Awning 250: **250 x 200 cm | 16 kg**
- Easy mounting on almost every roof rack and roof rail
- Packed in a robust, weatherproof tarpaulin, it can remain mounted on the vehicle all year round
- Super quick to set up
- Very stable
- Rain - and sun protection
- Color: gold-brown | black

SIDEWALLS

THE OPTIMAL BAD WEATHER SOLUTION

The VICKYWOOD side wall is an extension that you attach to your awning using a Velcro system. In the twinkling of an eye you have created a wind and weather protected room with spacious windows, which are additionally equipped with flexible mosquito nets. The ideal place for cooking, eating, socializing or just to linger when the weather is not so cooperative. The set consists of a fully enclosed room with four individual side walls. Easy to install and quickly ready for use.

- Available for both awning widths (200 | 250 cm)
- Set consists of four side walls with door and window
- Door and window additionally equipped with close-meshed mosquito net
- Easy assembly
- Rain - and sun protection
- Color: gold-brown

SHOWER TENT

UNINTERRUPTED SHOWERS?

The practical shower tent you can mount on your roof rack via a rail system infinitely variable. With two fold-out arms, our opaque shower tent is ready for use in less than a minute. Above you will find a device where you can hang a water bag. At the bottom, the shower tent is open so that the water can seep into the ground and drain away. So that your washing accessories do not have to lie on the ground, there are two practical pockets in which you can store soap and co. You can also use the shower tent as a changing room or toilet tent. Our shower tent is available with a removable hood.

It's already dusk when you want to take a shower? We know this too well - for this we have installed a small LED light strip with USB connection.

Equipped with an antibacterial silver coating, it prevents mold and odor and is also water repellent.

- Folded out (W x L x H): **100 x 100 x 180 cm**
- Weight: **7,5 kg**
- Folded (W x L x H): **105 x 15 x 15 cm**

SHOWER TENT WITH REMOVABLE HOOD

CAMPING FURNITURE

CAMPING CHAIR LIGHTWEIGHT

The practical, foldable camping chair weighs only 1,35 kg. Perfect for another camping trip, spontaneous picnic or a relaxed barbecue with friends.

- Folded (L x W x H): **39 x 14 x 13 cm**
- Weight: **1,35 kg**
- Quick Set-up
- Load: max. 135 kg
- Adjustable height
- Durable material
- With convenient bag
- VICKYWOOD-Leatherpatch
- Color: black

CAMPING TABLE LIGHTWEIGHT

Foldable camping table with hard surface and durable material – lightweight and quickly set up.

- Folded: **L: 59 cm | Ø 8 cm**
- Set up (L x W x H): **57 x 42 x 41,5 cm**
- Weight: **1 kg**
- Extremely quick set-up
- Load: max. 10 kg
- Durable material
- With convenient bag
- VICKYWOOD-Leatherpatch
- Color: black

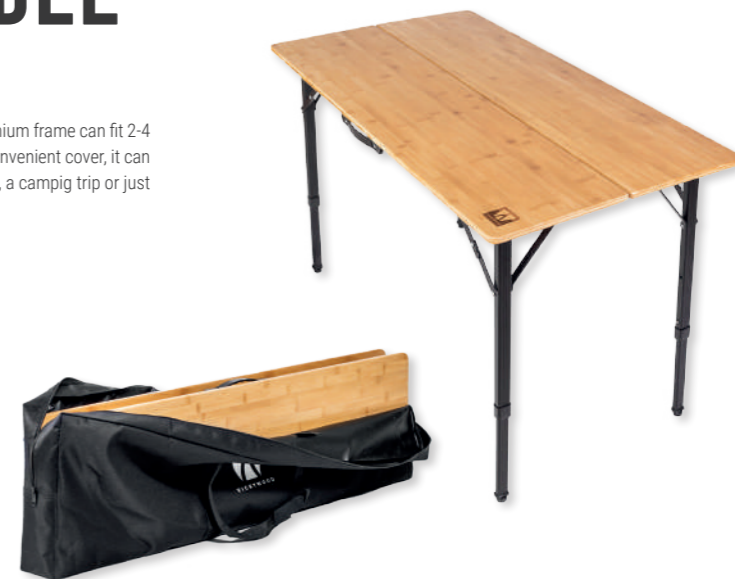

CAMPING TABLE

CAMPING TABLE BAMBOO

This high-adjustable Bamboo campingtable with an Aluminium frame can fit 2-4 people. With its small dimensions, a carrying handle and convenient cover, it can be taken almost anywhere: a picnic or barbecue at the lake, a camp trip or just in the garden at home.

- Tabletop made of bamboo, frame of aluminium
- Foldable, high-adjustable legs: **50-57-70 cm**
- With carrying handle and convenient cover
- Set-up (L x W x H): **110 x 60 x 50/57/70 cm**
- Folded (L x W x D): **110 x 30 x 8 cm**
- Load: **max. 30kg**
- Weight: **9 kg**

CAMPING CHAIR

CAMPING CHAIR DIREKTOR

Our foldable, comfortable camping chair is easily set up in only three steps. It comes with pockets on its side for smartphones or other equipment and is made from Aluminum and washable Polyester.

- Set up (L x W x H): **62 x 49 x 88 cm**
- Folded (L x W x H): **50 x 56 x 17 cm**
- Seat height: **45,5 cm**
- Weight: **4,9 kg**
- Load: **max. 110 kg**
- Color: black with VICKYWOOD-Leatherpatch

FOLDABLE CAMPING CHAIR

WITH CONVENIENT BAG

SMOOTH DIMMABLE CAMPING LIGHT

WOODY LANTERN CAMPING LIGHT

Our dimmable lantern is quite versatile: perfect for the camping table, the rooftop tent or the terrace at home. It can either stand on its own or hang thanks to the convenient carrying handle. The combination of stainless steel and bamboo creates the perfect look.

The lantern can be charged via **USB- or Micro-USB-port**. With its integrated powerbank it can be also used for charging other devices like smartphones. For turning on the lamp you press the button on side, which then also allows to change the brightness.

Technical specifications:

- Lithium battery pack 3,7 V
- 5200 mAh
- Output: 3,2 W
- 2200K warm white
- 180 Lumen

Dimensions | Material:

- Height: 23 cm (without handle)
- Diameter: 13 cm
- Weight: 450 g (without battery)
- Material: bamboo, stainless steel, plastic

LIGHTING

STORAGE

ALUMINIUM CAMPING STORAGE BOXES

Our practical storage boxes made of durable Aluminium are available in three different sizes.

- Made of durable Aluminium

VICKYWOOD CLOUDTOUCH BLANKET

3 IN 1 - A PILLOW, A COVER, A SLEEPING BAG

An all-rounder that should not be missing in any luggage - VICKYWOOD CLOUDY TOUCH is a **blanket, pillow and sleeping bag** in one. Thanks to the practical snap fasteners, our all-rounder can even be expanded and quickly converted into a cozy sleeping bag for 2 people. If you don't need it, just put it back and you have a super soft pillow.

The special feature of the material lies not only in the recycled fabrics used, but also in its texture. Moisture is omnipresent. It is therefore all the more important that the materials are not only water-repellent, but first and foremost fast drying. Who wants to lose unnecessary time when the next adventure is already just around the corner.

Our Blanket has a sustainable, water-repellent coating on the outside. The soft inside dries within minutes in the fresh air. In low temperatures, Cloudy's insulating inner layer will also keep you nice and warm.

Equipped like a penguin - a water repellent outer shell - an insulating warmth layer and a super fluffy interior in the smallest possible pack size. With 48 x 48 x 10 cm and a weight of just 1.5 kg, it is perfect for the small backpack.

With the blanket from **VOITED** you are flexible on the road and protect the environment at the same time. Because the Cloudy is made of so-called REPPEVE® fabric, which comes from recycled plastic bottles. This makes the blanket durable and ecologically sustainably produced.

VICKY VILLAGE
