Information about beliefs:

Have you read the book “An introduction to Tawhīd and Sunnah according to the understanding of the Salaf of the Ummah”? Yes

Do you disagree with any issues mentioned in the book? No.

Do you believe in the ‘Uluw (aboveness) of Allāh and His Perfect Attributes which negate any deficiency for Him? Such as Power, Life, Seeing, Hearing, Speaking.

Yes I believe in and affirm these all these things.

Do you believe in and affirm the Names and Attributes of Allāh as they have been narrated in the Qurān and Sunnah without *tahrīf, takyīf, ta’tīl, tamthīl* and *tafwīd*?

Yes. I follow the manhaj of the Salaf in this and leave the ways of the innovators and the zanadiqah who interpreted or rejected the Names and Attributes of Allāh.

What do you believe regarding democracy and those participating in it?

Democracy is a religion in itself. It is a way of kufr, and everyone who participates in it or talks to its advantage has left Islam.

What do you believe regarding those who legislate besides Allāh?

They are tawāghīt who have challenged Allāh in legislation which exclusively is the right of Allāh.

What do you believe about the rulers today who rule the countries with something else than the *Sharī'ah*?

They are kuffār tawāghīt and the worst of the creation at this present time.

What do you believe regarding invoking the dead for benefit and warding of harm, and those who perform such deeds?

Du'a is worship. And whoever directs any type of worship for others than Allāh is a mushrik and not a Muslim.
