

ALBA

**An
Introduction**

Company Introduction

- ✦ Alba LLC were established in Abu Dhabi, UAE in 2017 by the previous owners and senior management of Mechserv, a company that had bases in the Scotland and the UAE.
- ✦ Mechserv specialised in the design and manufacture of well service, drilling and process equipment, delivering thousands of projects worldwide. Mechserv was sold to Axon Well Intervention Products in 2014, who subsequently went out of business during the downturn.
- ✦ Providing the same equipment types, Alba operate in 3 business areas, these being:
 1. Equipment Rental
 2. Design and packaging to order
 3. Refurbishment and maintenance
- ✦ Alba also have a number of strategic alliances and joint ventures with specialist companies in the US, UK, Europe & Malaysia providing opportunities to deliver equipment from/to all of those regions depending on client / project requirements.

Company Introduction

✦ Alba's rental fleet includes a range of high specification onshore and offshore pumping and ancillary equipment capable of operation in various applications and environments. Including:

- Zone 2 and Rig-safe Triplex Pump Units

Partnerships

al yaseah

Through our partnership with [Al Yaseah Oil & Gas Industry Supplies](#) we supply local UAE companies with maintenance services enabling them to meet In Country Value (ICV) targets.

BABYLON
PUMP & POWER LTD

[Babylon Pump & Power Ltd](#), are a Perth based company providing specialist rental equipment to the Australian oil & gas and mining industries. With similar types of equipment, standards and values, the strategic partnership enables knowledge sharing and opportunities to offer each other's equipment to supplement our offerings

MGB
OILFIELD SOLUTIONS

We have a strategic technology partnership with Houston based [MGB Oilfield Solutions](#) to provide their hydraulic fracturing and pressure pumping technologies to the international market

REGOMS
We have the resources

We are working together with Regoms on specialist oilfield service design, manufacture and refurbishment projects, bringing our international experience into the local Malaysian market.

High Pressure Iron

✦ Through our partnership with US based MGB Oilfield Solutions we offer to the global market, the products of their sister company Tech-Seal International (TSI), one of the leaders in high pressure flow products in North America. This includes:

- ✦ Holding a stock of key products and spares in the UAE;
- ✦ Can provide their full range of 2", 3" and 4" 1002 and 1502 iron and their new DC15 iron to anywhere outside of the USA;
- ✦ Carry out maintenance and re-certification at our own site or at the clients site.
