ALCON

ALCON is an established Precast Concrete Products manufacturer in the UAE. Our vision is to provide our customers with the best quality products & services at affordable prices with prompt delivery. Alcon has enjoyed steady growth based upon a strong, client-centric approach, conformance to ISO 9001 and HSE standards and the constant pursuit for best quality and customer satisfaction.

At its present level, the company is well placed to ensure that all of the precast concrete products that are needed by clients can be manufactured by us. ALCON is proud to have been fulfilling some of UAE's most prestigious projects.

BENCHES

BOARD WALK (AlcoWalk)

AlcoWalk is our boardwalk made of concrete with a wooden surface texture.

AlcoWalk has a lifespan of more than 50 years. Due to the inherent strength from the use of reinforced precast concrete, the tread surface retains the boardwalk's wooden texture, renders it slip resistant and makes it resilient to thermal changes during its lifetime.

AlcoWalk is maintenance free. It is pressure washable, resilient to decay and rot and is available in many colors.
