Please kindly include your details when download so we can send you more information.

Standard

For all our clients that want to live the life they desire in the comfort of their home

Specialist

If you are facing health challenges in your later years then this is package to suit you.

Advanced

If your health challenges need the attention of someone to be with you and offering specialist healthcare.

Live-in Care

Alicelyn Healthcare Carers are here to support you to do a wide range of activities, from daily errands, meal preparation and shopping. Our care package also includes cleaning, medication administration and management.

Standard Live-in Care package

Those who need support with household tasks and assistance around the home, as well as keeping them company

Price is from GBP950.00 per week for one person. However, if you are a couple we need to come and do an assessment to determine your care & support needs. Please feel free to give us a call.

Specialist Live-in Care

Specialist care means service is delivered with additional care to cater for your health needs. The price can not be determined prior to us carrying out an assessment of your care and support needs.

Please feel free to give us a call and we will do a free no-obligation assessment.

Advanced Live-in Care

Advanced Care means service is delivered with greater levels of support from specialists and or complex care teams to cater for your health needs.

Please feel free to give us a call and we will do a free no-obligation assessment.
