

# Long hair - should care!

Being a hairdresser can be a shortlived dream. The average timespan working ad a hairdressers is only 8,5 years. This timespan is so short because of work related issues such as bad bones or skin allergy from hair-products and dyes. It does not make sense to us. We do not understand why governments and trade unions

do not do more to prevent this. We do what we can to spread the word about how you can prevent allergy when it comes to your hair products.

So whether you are in the chair or holding the scissors - have a look out for these wonderful hair brands if you want to live a skin-friendly life.

## BRUNS

Bruns Frisörer is a chain of certified green hairdressers located in Lund and Malmö, Sweden. The two founders developed Bruns products including a skin friendly and allergycertied series.

Their allergycertified products are sold in Sweden.

## BY FALENGREEN

By Falengreen has the certified luxury products that your hair deserves. It is simple and unique professional haircare with many years of development. Smart design and made in Denmark

Their 9 allergycertified products are sold in Scandinavia.

## PURESENZ

PureSenZ is a new brand from the Netherlands. Their Styling Cream Wax is a hair wax that gives a tangled and matt effect to your hair. It does not stick and is easy to apply. Moreover, this hair wax contains no perfume or dye.

Their products can be bought in the Netherlands and Belgium.

## ZENZ ORGANIC PRODUCTS

Zenz Organic products focus on health, sustainability and ecology. Zenz Organic Products aim to contribute to a healthier hairdressing experience for both the consumer and the hairdresser. They offer a complete professional skin-friendly product line based on natural and organic ingredients, where most of the products are also vegan.

Their 13 allergycertified products are sold in more than 16 countries!
