Addressing Poverty
with Lived Experience

Who are we: We are the APPLE Collective - a national collective of organisations who work alongside people who have experienced or are experiencing poverty.

Our aim is to create a sustainable, grassroots network across the UK to raise awareness of poverty, reduce stigma and work together with others to eradicate it.

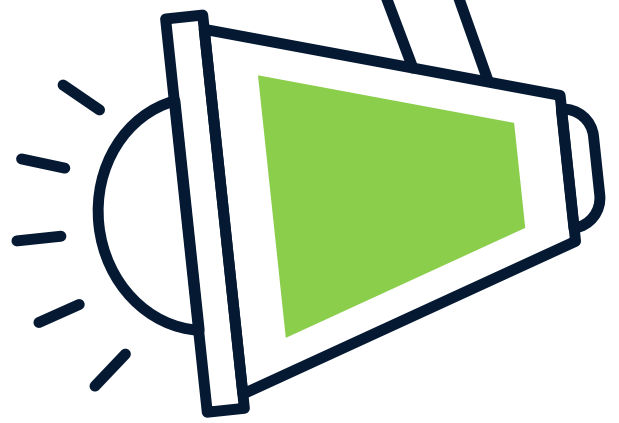

Our Values: As part of the APPLE Collective everyone in the network has an equal opportunity to have their voice heard;

- We create a supportive space for the coming together of individuals with direct experiences of poverty to build relationships of trust and mutual understanding.
- Build the capacity of individuals with direct experiences of poverty to share their insights through peer support, training and knowledge sharing.
- Work together at a national, regional or local level to promote the voices and influence of those with lived experience of poverty on the decisions that impact them and to raise awareness of and reduce the stigma associated with poverty.

The APPLE Collective undertakes to:

- Adhere to the values and principles listed
- Commit to respect the independence of each member organisation
- Give notice before each collective meeting
- Provide appropriate paperwork before each collective meeting
- Keep in touch with member organisations

We are network that promotes the voice of those with lived experience of poverty but that works collaboratively with others across society to use that voice to affect change. We invite groups that have experience or are led by people who are experiencing poverty to join us and become part of the APPLE Collective.
