

Aqua Robson Care Ltd

Care in the comfort of your home

***Delivering quality support that you
will trust.***

ABOUT US

Most of us want to stay in our own homes for as long as possible, but at some point in our lives, we may require assistance and support to do so. We recognise that there are numerous advantages to staying at home.

A home is a haven of security and safety, a repository of priceless memories, and it serves as a reminder of those we love and cherish. Because we know how important it is to get care at home, we offer a specialised service that lets you stay at home for a longer period of time.

**We take your data security seriously, hence
we are signed up to the NHS National Data
Guardian's 10 Data Security Standards**

WHAT EXACTLY IS "LIVE-IN CARE"?

Our Live-In Care service helps you to maintain your independence in the comfort of your own home. Our carer is with you 24 hours a day, seven days a week to provide a personalised care service tailored to your specific needs. There is no reason to abandon friends, family, and the comforts of home. Independence can be valued without the worry of coping alone. Whether the care needs are complex or simply companionship, Live In Care provides you with the peace of mind that support is always available, day and night. We will assist you in locating a live-in caregiver who fits your needs. We will provide a care package that is entirely tailored to your individual needs and preferences as reflected in your individual care plan. One of our assessors will work closely with you and your family to develop a care plan. You are involved in every step of their care planning. As a result, we are sure that you will get the kind of care that meets your needs.

Whom we care about

We are registered by the Care Quality Commission (CQC) to provide services to people who have:

Alzheimer's disease

- Dementia

Parkinson's disease

- Laundry, shopping, and light housework

BENEFITS OF LIVE IN CARE

There are many benefits for live-in care. The following are some of them: Safety – Our live-in care services can assist you or your loved one when you have chronic health issues, memory loss, or are at risk for falls or other health and safety concerns.

1. Ageing in your haven – It is fulfilling to grow older in your home. Couples do not need to be separated. Get to enjoy life in a familiar place, surrounded by memories.
2. Reduce pressure on family caregivers – Our carers can relieve you of the pressure associated with caregiving duties and allow you to take a much-needed break.
3. Activities and entertainment – Your carers can help you do the things you love. They will facilitate activities, helping you with hobbies and interests.
