

# ASAC TRIAL

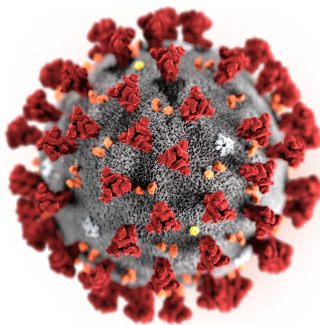

Scandinavian Livermet Study

## NEWSLETTER

-March 2020

### Covid-19

The situation with the Covid-19 is affecting all of us at the moment. You might all have other priorities than the ASAC study right now, which is very understandable. We should all do what we can to fight this virus. We hope that all of you are safe! If you do have the opportunity to still include patients to the study you can do that. The study nurses in Oslo can help you if needed.

### New Principal Investigator

**Sheraz Yaqub**, Co-PI, is now the new Principal Investigator of the study. This is

approved by our sponsors. We will soon send you a new protocol for signing. **Bjørn Atle Bjørnbeth**, former PI, is now appointed as CEO of Oslo University Hospital – Congratulations!

### Inclusion status

There are now 295 included patients. 68 patients in Denmark, 72 in Sweden and 155 in Norway.

We would like to wish you all a happy and safe Easter! Take care and keep up the good work!
