## eCRF`s and follow-up

We would like to thank you for the good work you are doing with the data collection in the eCRF`s. Going forward, it will be important to collect CT results, CEA and QoI on all patients to get the best possible results for the study.

## Study medication

Batch #XB2101 expires in February 2023.  
All sites who needs medication will receive medication before this. Please contact Cecilie Moe if you have any questions regarding the new batch or allocation in VieDoc.

*We would like to wish all of you a Merry Christmas and a happy new year.*

*Best regards,*

*The ASAC team*
