## **An invitation to sponsor ASHRAE UK Chapter Regional Conferences (CRC) 2024**

---

The ASHRAE Chapter Regional Conferences (CRC) 2024 is a must-attend event for all stakeholders in the built environment industry who are passionate about reducing carbon emissions from buildings and infrastructure.

During the CRC, the Net Zero summit provides a unique opportunity for professionals to share information, exchange ideas, and collaborate on the design, construction, ownership, and operation of facilities that have a neutral impact on the environment. Our main goal is to enhance the knowledge base while fostering global collaborations in decarbonization efforts, ultimately leading to a sustainable future. Join us at this ground-breaking event and be a part of the solution towards a greener, more sustainable built environment.

The CRC will take place from 19-22 September 2024, with the Summit taking place on 20 September, at Oxford university in the UK, and is organized by the ASHRAE UK Chapter for ASHRAE European Region XIV.

The conference organizers are pleased to offer several sponsorship opportunities to engage industry participation. The sponsorship offsets conferences expenses and provides access to seasoned practitioners and principals.

All sponsors will have their company logo and name on the event flyer, the regional and ASHRAE UK Chapter's websites, CRC app, and they will be recognised during the CRC. A summary of the specific benefits of each sponsorship level is provided below.
